EISENHOWER'S TROOPS ALONG ENTIRE FRONT GAIN STRENGTH IN DRIVE TO JOIN RUSSIANS

American First Advances to Within 4,000 Yards Of Center of Surrounded Leipzig as Seventh Clears Half of City of Nurnberg

RUHR POCKET IS ALMOST ENTIRELY STAMPED OUT

Paris, April 18.—(P)—The Third Army bisected Germany today, invading Czechoslovakia.

As Lt. Gen. George S. Patton's troops crossed the Czechoslovak frontier, the First Army stormed to within 4,000 yards of the center of surrounded Leipzig and the Seventh Army cleared half the Nazi city of Nurnberg.

All along the front, Gen. Eisenhower's armies were gathering strength for the final drive eastward to meet the Russians.

The Ruhr pocket, which has yielded 309,484 prisoners, was stamped out except for 125 square miles around Duesseldorf. Another 50,000 were expected to surrender today, a dispatch from Gen. Omar Bradley's headquarters said. The German calamity in the Ruhr may yet surpass the debacle of Stalingrad. The Germans lost 330,000 in killed and captured alone three years ago at Stalingrad in one of history's decisive battles. The Allies may have as many as 359,000 prisoners from the Ruhr by night, an annihilation pocket in which the enemy lost countless dead.

The Ninth Army captured Magdeburg (334,358), securing a firm anchor on the Elbe river opposite Berlin. The industrial and commercial center was the 20th largest city of Germany before bombs and shells reduced it to the smoking ruins which the Hell on Wheels (Second Armored) and Old Hickory (both) divisions captured.

Paris, April 18.—(P)—U. S. Tank-trading U. S. Third Army Infantrymen invaded Czechoslovakia today, bisecting Germany with a plunge into the Sudetenland, which Hitler annexed to the Reich after Munich in 1938.

The 90th Division invaded Czechoslovakia northwest of Aach in the northwest of the country. The Americans had dashed eight miles from the area of Hof, which is about 10 miles south of captured Plauen.

The last lap of the drive to cut Germany in two was made without opposition except for a brief flurry of gunfire in the German village of Prex, less than a mile from the border, a front dispatch said.

The halving of Germany was of more geographical than immediate military importance, because the enemy still has circuitous contact between north and south Germany through the mountains of Czechoslovakia.

Censors would pass only the bare report that Czechoslovakia was entered.

(Presumably, the invasion was in the Plauen area, where troops of the 90th and 26th Divisions last were reported within four miles of the frontier.)

Eastern Czechoslovakia has been deeply incaded by the Russians, who today were fighting within sight of the industrial city of Bruenn. It was the seventh, or perhaps the eighth country invaded by Gen. Eisenhower's western armies. The others were France, (Turn to Page Nine)

London, April 18.—(P)—A Japanese broadcast boasted today that the Japanese soldier is a better fighter than the Nazi superman and would prevent Allied troops from landing in Japan, even though the Germans could not keep the Americans and British from landing in France.

Administration Speeds Up Health Program Legislation

Harrisburg, April 18.—(P)—The administration today speeded to ward enactment legislation providing \$3,400,000 to finance health programs in Pennsylvania as a result of threatened withdrawal of federal funds.

The appropriation was pushed into position for a house vote after exchanges over the federal anti-politics Hatch act and status of Dr. A. H. Stewart, state secretary of health.

Dismissal of Stewart for political activity was recommended by the U. S. Civil Service Commission under Hatch act provisions. Notice has been served that \$20,000—twice the amount of his salary—will be withheld from federal grants unless Governor Martin complies.

President Being Urged To Delay Meeting With Allied Leaders Until After Parley

Washington, April 18.—President Truman is being urged to delay a meeting with the heads of major Allied states until the San Francisco conference has acted on a world peace-keeping organization.

Although Mr. Truman said at his first news conference yesterday he would be very happy to talk soon with other members of the Big Five, many in Washington felt that any such coinciding convolve might prove embarrassing to the United Nations delegates.

As an example, Senator George (D-Ga.) told a reporter that, while he thinks it "highly desirable" for Mr. Truman to sit down with the world leaders as early as possible, he believes the San Francisco meeting would stand still while they talked.

"Any such conference certainly would overshadow what was being done at the United Nations meeting and might lead to the belief that the real issues were being settled by the heads of the state and not the delegates," he said.

Mr. Truman left no doubt that he is placing full confidence in the judgment of this country's eight delegates, headed by Secretary of State Stettinius. He told newsmen they are competent negotiators, adding that he does not intend to go to San Francisco but will stay at his desk where he ought to be.

The free hand the president has given them lent added weight today to the American delegates' decision to support changes in the Dumbarton Oaks peace formula which would permit the proposed international assembly to recommend—but not enforce—postwar treaty revisions.

The delegates met today for final approval of a draft of agreed changes, including amendments calling for the forthcoming peace to be based upon justice.

At that session they had before them the unsettled question of trusteeships for reconquered Allied possessions and lands taken from the enemy.

7,000 Rescued As Doughboys Enter Baguio

Manila, April 18.—(P)—American soldiers fought inside the Japanese stronghold of Baguio today as Gen. Douglas MacArthur announced the rescue of more than 7,000 civilians from the once gay, attractive summer capital of the Philippines.

From a line on the northwest outskirts, four miles from the center of the ruined city, Doughboys of Maj. Gen. Percy W. Clarkson's 33rd Division encountered heavy fire from guns dominating this approach.

The battle increased in intensity as the Japanese indicated they intended to defend their mountain citadel to the limit.

Heavy rains, heralding the approach of the wet season, hampered movements on newly-bulldozed roads.

Isolated mountaineers were credited with saving many of the 7,000 civilians, mostly Filipinos. Baguio, Japanese last-stand headquarters, was also the last seat of their Filipino puppet government, headed by Jose Laurel.

Refugees from the city confirmed reports Laurel had fled to Japan, possibly with Gen. Tomoyuki Yamashita, Nipponese commander-in-chief in the Philippines.

Conference Called In Paternity Suit

Los Angeles, April 18.—(P)—A legal conference was called in superior court today over how much support Charlie Chaplin shall pay for 18-month-old Carol Ann Berry, declared by a jury to be his baby.

The verdict yesterday, cheered and applauded by many spectators, was a bitter reversal for the British-born actor in his court battle resulting from a romantic involvement with the infant's mother, Joan Berry.

The red-haired Miss Berry asks \$2,500 monthly for support of Carol Ann. Chaplin has paid her more than \$18,000 for attorney fees and still pays \$75 weekly under a pre-trial agreement.

His attorney, Charles E. Millikan, said he had not yet decided whether to appeal the verdict. He declined to say, until after the support hearing, whether he would move for a new trial.

PLYE KILLED BY JAPANESE MACHINE GUN

Famed War Correspondent Hit While Standing With Regimental Officer On Ie Jima

MOURNED IN CAPITAL

By LEIF ERICKSON
Guam, April 18.—(P)—Ernie Pyle, the GI columnist, was killed today by Japanese machinegun ambush on Ie Jima, a 10-square mile island just west of Okinawa.

Fleet Adm. Chester W. Nimitz' headquarters said Pyle was killed instantly by a surprise machinegun attack at 10:15 a. m. on the southern side of the island, while observing the advance of 10th army troops who had invaded the island Monday.

Pyle when hit was standing with a regimental commanding officer of headquarters troops when a Japanese machinegun opened fire. The commanding general of the Ie Jima invasion troops officially reported Pyle's death as follows:

"I regret to report that War Correspondent Ernie Pyle, who made such great contribution to the morale of our foot soldiers was killed in battle on Ie Jima today."

In Washington his death was announced by Secretary of the Navy Forrestal and President Truman issued a statement of condolence.

"The nation is quickly saddened again by the death of Ernie Pyle," Mr. Truman said.

Forrestal said Pyle was killed instantly by Japanese machine gun fire while standing beside a regimental commanding officer.

(Because Okinawa is 14 hours ahead of Washington time, it was Tuesday in Washington but Wednesday, April 18, on Ie Jima when Pyle died.)

Ernie Pyle's full name was Ernest Taylor Pyle, but he was added to simplicity, both in his writings and in his dealings with the Doughboys whose stories he told.

Pyle saw more war than many soldiers, and he hated it. Twice in Europe he narrowly escaped the death that overtook him on Okinawa where he was writing his daily column.

Nip Air Force Loses Over 2,280 Planes

By AL DOPKING
Guam, April 18.—(P)—More than 2,280 Japanese planes—a sizeable chunk of the Nipponese air force—were destroyed by American and British carrier planes and antiaircraft gunners in the last month in support of the Okinawa invasion.

This staggering toll was announced by Adm. Chester W. Nimitz today amid increasing indications that Japan's fierce air attacks on the American invasion armada off Okinawa heavily drained the enemy's supply of planes and pilots.

The planes were knocked out of enemy air fleets attacking the Americans on and off Okinawa, and also in U. S. and British carrier raids on the Ryukyus and the Japanese main islands.

Destruction of the Japanese air force thus averaged 76 planes a day from March 18 through April 17.

This toll does not include planes shot down by Superfortresses or by escorting Mustangs from Iwo Jima. In one recent Tokyo raid, B-29 gunners alone shot down or damaged 136 aircraft and escorting fighters added 37.

Japanese planes hit the Okinawa area heavily again on Monday, striking in 10 waves between 9 and 10:30 a. m. At least 10 of the attackers were demolished in suicidal attempts. Sixty-two were shot down in combat and 38 fell to anti-aircraft fire.

Infantrymen on southern Okinawa still were locked in a bitter artillery duel four miles north of the capital city of Naha while marines edged closer to the northern beaches through small pockets of Japanese resistance.

Truman Takes Advice From Friends But Will Run Show

By JACK BELL, Associated Press Political Editor

Washington, April 18.—(P)—President Truman intends to run his own show. He will take advice from friends. But he will make the decisions.

That was the interpretation Washington put today on several separate actions in which the new president displayed a firmness not surprising to those who knew him on Capitol Hill.

Controversy Over Tariff Policy Starts

Washington, April 18.—(P)—Assistant Secretary of State William L. Clayton said today failure to continue the nation's reciprocal tariff policy might well lead to a third world war.

The statement came as President Truman encountered his first pitched battle in congress.

In response to questioning from the house ways and means committee, Clayton declared that the failure would disillusion the world regarding this nation's pledges for economic prosperity through free trade.

Meanwhile, Secretary of Agriculture Wickard, testifying before a senate small business subcommittee, declared today that expanding world trade is essential to lasting peace and told senators that a broadened reciprocal trade agreement law and enactment of the (Turn to Page Nine)

Hoover Outlines Plans For Peace

Philadelphia, April 18.—(P)—Method must be brought up to date its methods of preserving peace if civilization is not to perish altogether in a third world holocaust, Herbert Hoover said here last night.

In an address before the Foreign Policy Association, broadcast by NBC, the former president said the San Francisco charter should "agree upon a definition of aggression to include direct or indirect subsidized governmental propaganda in other nations."

"Enforcement of such a provision would help cure that cause of wars which grows out of crusading faith, political or otherwise," he said.

Hoover urged that the security council control military alliances which he said "make for balances of power" and that "Senator Vandenberg's proposal that the assembly be given freedom of initiative" be adopted.

Hoover opened his speech with a note that he was speaking in a private capacity.

G. O. P. Senators Visit White House

Washington, April 18.—(P)—A delegation of Republican senators told President Truman today that they were willing to consult with him "at any time where prospects of differences over legislation appear."

"We explained our position," added Senator Taft (R-Ohio), "that there may be occasions where differences can be ironed out directly by consultation and agreement."

Taft, chairman of the senate Republican steering committee, told reporters that he and his colleagues called at the White House in the role of the "loyal opposition."

The conference lasted about 30 minutes.

Taft told reporters it was the first time he had been in the president's office "since the days of Mr. Hoover."

NINE RUSSIAN ARMIES PUSH UPON BERLIN

Nazis Concede Red Gains Through Strong Positions In Blazing Arc Around Shattered City

OFFENSIVE ON ODER

By RICHARD KASISCHKE
London, April 18.—(P)—German broadcasts declared today the battle for the eastern approaches to Berlin had "reached its climax" with Russians breaching defense lines only 18 or 20 miles from the capital, and that Soviets had launched a third offensive south of Stettin aimed at linking with the Allies on the north German plain.

Front dispatches to Moscow asserted the Russians could see Berlin burning, but did not yet specify that any offensive was underway.

Nine Russian armies are smashing toward Berlin, the Germans said, conceding Red army gains through the strong hedgeliog positions in the blazing arc east and northeast of the bomb-shattered city.

The enemy declared Stalin had thrown in a third offensive on a 17-mile Oder river front south of Stettin, intending to slice in between that Baltic port and Berlin, and join the western Allies north and west of Berlin. This drive has assumed great dimensions, the broadcasts said.

The Germans declared Marshal Ivan Konev had expanded his surge across the Neisse river southeast of Berlin to a 45-mile front, and was nearing Cottbus, on the Spree river 48 miles from Berlin. Moscow has not confirmed any of these three enemy-reported drives.

Capt. Ernst von Hammer declared nine Russian armies were striking toward Berlin and "hundreds of tanks are rolling over the plowed-up battlefield x x x the battle has reached its climax."

Transocean said the Russians had pushed south from Wriezen and west from Seelow, where they would be less than 20 miles from greater Berlin, and astride main roads. One Russian frontal drive, it added, is hitting west along a main road from Kuestrin to Muencheberg, only 17 miles from Berlin. A deep penetration south of (Turn to Page Nine)

SECRETARY TO SEN. MYERS IS STRICKEN

Washington, April 18.—(P)—Orrin L. Farr, secretary to Sen. Myers (D-Pa.) died suddenly this morning of a heart attack in his home at 20 Winston Drive, Bethesda, Md. He was 62.

He is survived by his widow. Farr had been secretary to Myers during the last half of the senator's six years in the house of representatives and accompanied him to the senate this year.

AGREE ON BENEFITS

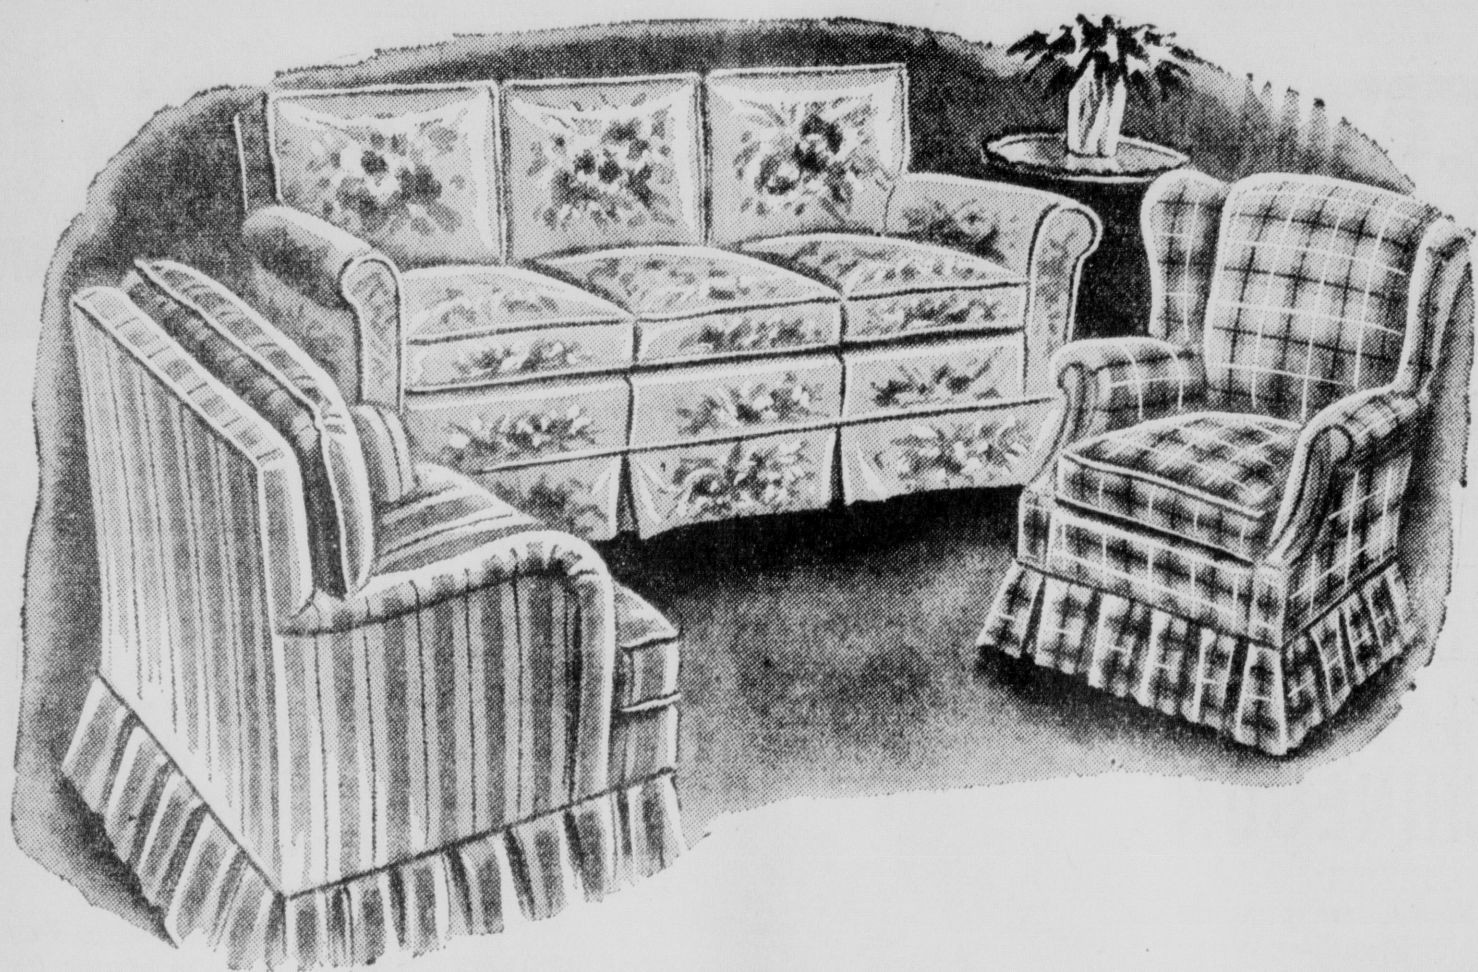

Harrisburg, April 18.—(P)—Governor Martin's program to increase maximum workmen's compensation benefits from \$18 to \$20 weekly and minimum payments from \$9 to \$10 was approved today by the senate workmen's compensation committee. The committee also approved the governor's amendments to the occupational disease act making similar increases in benefits.

Second Missing In Action Message Received In Home

The second missing in action message from the War Department has been received by Mr. and Mrs. Harry B. Nelson, of Lander, that he is a German prisoner of war. Written in French and carrying the date January 17, the card states he was "in good health" and expected to be transferred soon. The camp given, Stalag 5-A, is listed by the Red Cross as a camp for enlisted men and located at Ludwigsburg, near Stuttgart, already in Allied hands.

The Nelsons had no word concerning him since the missing in action came on January 21. He entered service on February 28, 1943, and went overseas with his infantry unit in August, 1944. He was in France at the time he was first reported missing.

Officials in charge of Red Cross headquarters, 404 Market street, request that all persons having smocks or uniforms there call for them as soon as possible. There are a number of garments unclaimed and the owners are urged to secure them before May first, or other disposition will be made of them.

FROST COVERED COUNTY
Early risers this morning were treated to a view of a white frost that covered roofs and lands throughout the county. The frost was heavy and at 8 o'clock many thermometers about town still registered 32 above zero. Just how much damage was done to fruit and crops about the county cannot be ascertained until later in the season. However reports from the fruit belt along Lake Erie are to the effect that much damage has been done there and it is feared the cherry crop is almost ruined.

SUGAR GROVE

Sugar Grove, April 5—The Sugar Grove Joint Vocational School presented the play *New Eldes*, in the auditorium, Friday evening. The following students who took part, all gave a very fine performance: Betty Bickelstaff, Alice Firth, Serrill Brown, Ray Sanders, Fred Anderson, Melburn Landin, Phyllis Hendrickson, Louise Bruce, Linnea Henning, Norma Haight, Oliver Swanson, Perry Swanson, Doris Norbeck, Audrey Hoy and Marie Eckert.

Principal Allan H. Frank directed the three act comedy and others who took part and made such a success of the entertainment, were advertising, Betty Phillips; tickets and programs, Evelyn Hodges; bookholder, Dorothy Miller; costumes, Elaine Henning; stage crew, Arthur Craker and Ellwood Swanson; stage properties, Helen Anderson. The stage set was designed by the home economics and agriculture departments.

At the opening of the play, Everett Landin, as leader and Miss Doris Engstrom as pianist, led in the singing of the National anthem and silent prayer and the singing of America, as a tribute in memory of President Roosevelt.

Yesterday afternoon at 2 o'clock in the office of the County Commissioners, sitting as an election board drawing for places on the ballot to be used in the primary June 19th, were made, President George Seavy, of the Commissioners Board presided and there were present a number from about the city and county.

Hary Johnson drew first place on the ballot over Homer Fitch for the office of Warren Borough Tax Collector.

John Meade drew first place over Donald Schuler on the ballot for Register and Recorder.

For Warren Borough Council in the Eighth ward Delbert Lewis drew first place over Donald D. Dumond.

For the six year term of School Director in Warren borough Neil Peterson drew first place. The Rev. Beecher Rutledge, second place and Dr. William Cushman, third place.

For place on the ballot for Burgess of Youngsville Warren J. Kay drew first place with Edward Day getting second position.

In several other districts over the county places on the ballot were also decided.

Sell-Out For North Warren Presentation

An enthusiastic audience that filled every seat in the North Warren community house thoroughly enjoyed the first performance of the North Warren Minstrels last evening.

The novel and attractive stage setting, the unusually catchy songs, the infectious humor, the choral numbers, ballads, quartets, and the many specialty acts all blended together to make one of the finest minstrel shows ever seen in this vicinity.

Every member of the large cast contributed his or her full share to the success of the production and all are receiving the congratulations of those who saw last night's performance.

Special credit should go to Russell F. Dietrich, director; Marie B. Cook, conductor of the special choral numbers, Gwendolyn Winner, the accompanist, and the orchestra under the direction of Georgia Lott Pepke.

The final performance of the show will be presented this evening at 8:30 o'clock.

Inventory To Start Soon In Highway Plant

Orders issued to the Highway Superintendents in the state will soon set in motion at the local highway plant an inventory of all equipment and scrap material to be completed before May 1st. Supt. Warren Lowe will go over the local plant and all scrap will be sold or contributed to the war effort.

"This inventory," Shroyer emphasized, "shall be no hit or miss undertaking and must include every piece of equipment, good, condemned or unserviceable. Furthermore, the scrap inventory shall include the approximate weight of all unserviceable condemned tires and tubes; approximate weight of scrap iron; scrap material such as mixed scrap iron, heavy scrap iron; oil drums and tar drums unfit for further use; separate lists of aluminum, copper, tin and brass, all of which will be contributed to the war effort."

"It is most important that we have a correct inventory since under prevailing war conditions there has been no appreciable increase in the amount of new equipment acquired, but on the other hand the wear and tear of the past year on our already over-used equipment has created a material reduction."

SIZING UP THE WESTERN FRONT

DeWitt MacKenzie, Associated Press War Analyst

The slowing down of General Eisenhower's offensive need cause no anxiety or disappointment whatever, since it's a normal development that has been anticipated by observers from the outset of his great drive from the Rhine.

As a matter of fact, the western Allies are much farther ahead with their job than we had any right to expect when they began their push, and are in grand shape for the kill. The slackening off is due to several things—the rapid extension of Allied communications which has hampered movement of supplies, a stiffening of German resistance as we near Berlin and the heart of the Reich, and possibly to the requirements of coordinating the operations of the western Allies with those of the Russians.

Actually, it's one of the wonders of the war that Eisenhower has been able to move his supplies as fast as has been done—a feat of logistics which has been drawing the plaudits of military experts.

It was, of course, vital in the early days of the offensive that the momentum be maintained, because a slackening might give the enemy a chance to reorganize his shattered forces. By and large, the Allied high command has kept up the scorching pace of the offensive until the western Allies are drawing in on Berlin to join the Russians in the siege of the capital, and are close to a junction with the Red battle-line along the Oder river. Thus General Ike has out-run the early dangers attendant on his rapidly extending communications.

But, you ask, won't the present slowing down give the Hitlerites a chance to reorganize? Quite likely it will, but they're so badly cut to pieces on the western front that their reorganization won't profit them nearly as much as it would have earlier in the offensive.

However, I think we must assume that the coming battle of Berlin will be a tough one. The tightening up of Nazi resistance as we approach the capital indicates that, and the signs all along have been that Hitler intends to make a grandiose gesture in his defense of this pride of Prussia, which not so long ago had jammed within its limits some 5,500,000 people and may still contain a huge civilian population.

So it can be seen that there's prospect of considerable fighting yet, a fact which emphasizes the wisdom of Eisenhower in stating that there will be no announcement of V-E Day "until all important enemy pockets on the western front have been wiped out."

A SOLDIER PRESIDENT

Today, after more than 26 years, a veteran of the first World War, holds the country's highest office. Harry S. Truman, major of artillery and veteran of St. Mihiel and the Argonne, now occupies the White House as the first soldier-President since Theodore Roosevelt left office in March of 1909.

It is rather out of key with our past history that more than a quarter of century should pass before a veteran of one of our major wars was elevated to the Presidency. Soldiers of the Revolution, the War of 1812, the Mexican and Civil and Spanish-American Wars have all held the office, most of them not many years after they had laid aside their uniforms.

In all, 14 of our 32 presidents have seen military service in war. They have made good, bad and indifferent Presidents, so there is no apparent correlation between soldiering and statesmanship.

But it should be noted that President Truman's military record is good, marked by consideration as well as ability. It is known that the men whom he commanded held him in high regard.

President Truman suffered some of the economic distresses that were the lot of many returned soldiers after the last war. It may safely be assumed that, with such an experience, the consideration and concern which he showed for his men in battle will mark his efforts toward seeing that the veterans of this war are provided for more worthily.

SEASON FOR CONFLAGRATIONS

Of eighty-seven conflagrations in America since 1914, thirty-seven or 47.5%, occurred in the months of March, April, May and June.

This indicates, according to the National Fire Protection Association's booklet—"Conflagrations in America since 1914"—that the greatest conflagration hazard is in the spring when high winds, limited humidity, dry weather, grass and brush, and dry wood shingle roofs make conditions most favorable to the spread of fire.

The NFPA urges communities to clean up during the Spring Clean-up Campaign but cautions against burning trash on windy days or when thoroughly dried.

YEARS AGO IN WARREN

Interesting Items Taken From The Warren Evening Times

In 1925
E. E. Murray, of Youngville and formerly a driver for the Anderson Bakery, has purchased a truck from the G. G. Greene Company and has opened a bakery route between Youngville and Corry.

The Blue Bell Potato Chip Company, formerly owned and operated by James C. Nophsker, Alexander street, has been purchased by Edwin H. Streich, 4 Allison street, and will continue the business.

Chief of Police Martin Wholeben has issued a warning to motorists not to park their cars out of doors. Many autos have been stripped of their belongings in the past days.

Several hundred dollars damage was caused by two lightning storms which swept over the section. The homes were struck by lightning, and the streets were completely flooded.

In 1935
More than four hundred dealers of the Emblem Refining Company met in Warren, with representatives from all northwestern Pennsylvania and southern New York state. Following the dinner, the group toured the plant.

The radio-phonograph combination which the students of Beaty school will receive in turn for 6000 records is now on display at the Phelps Radio Shop. Already 5300 records have been collected.

E. Clyde Orris, 511 West street, has received notification of his appointment as superintendent of highways for Warren County. Mr. Orris was formerly connected with the Bethlehem Steel Company.

Natural gas engineering students at the Pennsylvania State College will visit Warren in their tour through the state. The students, all seniors, will inspect the Struthers Wells Company laboratories.

Everyone Is Responsible In Forest Fires

The protection of woodlands from fire is the responsibility of every person, says R. F. Hemingway, Forest Supervisor of Allegheny National Forest. Our forested areas are now in a critical period due to the tinder dry condition of the accumulation of dead leaves, twigs, and partially decayed material which covers the forest floor. A small spark carelessly dropped into this highly inflammable litter will start a fire that may require the services of large crews of industrial workers now employed on war material production to suppress. Thousands of trees large and small, may be injured or destroyed.

Wood and its products have been used by man since the beginning of time. This condition is especially true today. Due to laboratory research wood provides more than 4000 uses. A recent report states that our Navy uses wood for more than 1200 purposes.

Certain food elements, medicines, plastics, lumber and timbers, veneers, plywood, resin, pitch, rayon, shoes, towels, cardboard, and a great many other items come from trees. New uses are discovered each year.

Many large forest fires have laid waste vast areas on Penn's Woods in northwestern Pennsylvania, says Mr. Hemingway. In too many instances the damage continues for generations to come when the humus or top soil has been consumed. Trees require nourishment and when robbed of

War is the Enemy of Men. Fire is the Enemy of our Forests.

Be careful with matches, cigarette and cigar butts and pipe heels. Extinguish them.

Build debris fires in safe places on rainy days or in the evening after the wind has become quiet.

Be certain that your campfire is dead out. Put plenty of water on it and then bury it with mineral soil.

Large forest fires are of daily occurrence. It is now time to prevent them by being careful with all kinds of fire causing materials.

Let us all be a friend to our friends—the trees. Prevent Forest Fires.

"What Can You Spare That They Can Wear?"

Anything and everything available is being pressed into service by the destitute men, women and children of the war-ravaged lands to serve as covering for their emaciated bodies. Reports from Albania tell how they fashion makeshift garments by unraveling tent ropes and weaving the fiber into cloth, then filling down iron scraps to serve as needles, while in Leyte, in the Philippines, it wasn't long after the landing of the Yanks, before some of the natives were seen wearing G. I. towels as sarongs.

V-E Day Won't End Trouble Over Various Shortages Here

BY STERLING F. GREEN

Washington, April 18—(P)—Some of the worst shortages may come after victory in Europe.

Very obviously the government expects a German collapse before mid-year. Ultimately civilian goods will rise to pre-war levels, even if Japan fights on for another 12 or 18 months.

But some of the really troublesome shortages—the day-to-day needs that worry housewives and cause hours of hunting in the stores—in shirts, shoes, house dresses, children's overalls and infants' underthings, are likely to be worse before they are better, come V-E Day or not.

Some of the goods that appear to be plentiful in the stores will disappear. Many are the tag-ends of supplies, the wind-up of the merchandizing pipeline from manufacture to jobber to wholesaler to retailer.

The pipeline is emptying. When the stores sell out there may not be more coming up.

In order to get more moderately priced goods started up the pipeline again, WPB has clamped harsh controls on the protesting garment industry.

"Next fall and winter those same shelves would be bare of many important apparel items without this program," says William Y. Elliott, director of WPB's office of civilian requirements, in defense of his stern regulations.

Fewer shoes will be made in the next several months because of deep new cuts newly imposed on leather supplies for civilians WPB wants manufacturers to make 150,000,000 pairs of fabric-and-

rubber substitutes, but the manufacturers generally are not eager to do it. It would require some conversion of machinery.

The shortages are not confined to clothing. Automobile batteries are scarce right now, for instance, and a 40 per cent drop in manufacture this month was averted only by dipping into the country's depleted lead stock pile.

Enough lead is being furnished to the makers of tubes for toothpaste and shaving cream to carry them while they convert to aluminum or some other substitute.

Lumber will be scarce for months. So will paper, photo film and many other things. "In both cotton and woollens, the army's large requirements will not diminish after V-E Day," said Elliott this past week end. "In many items there are increases for the Pacific war through 1945. That will affect the supply of textiles and garments through 1945 and possibly into 1946."

CHURCHES

AT UNITED BRETHREN

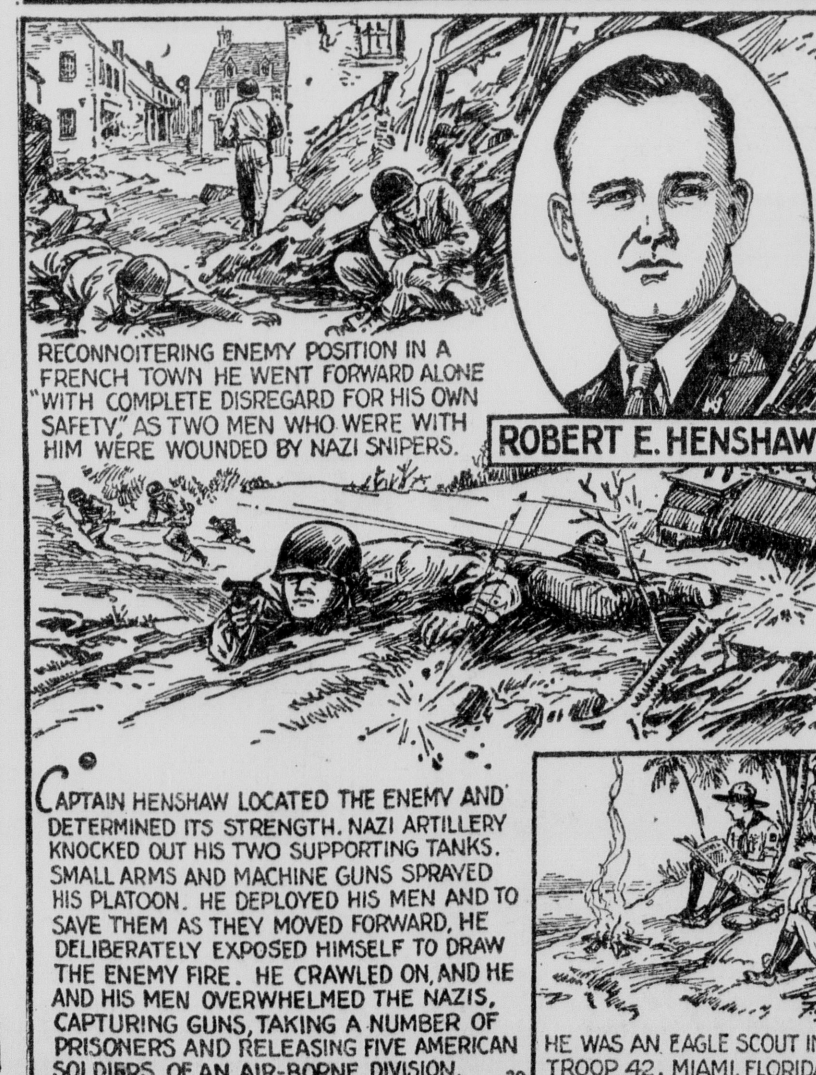

Rev. C. Norton Warner, of Jamestown, N. Y., is bringing some fine spiritual messages at the revival meetings being held in the First United Brethren church and Mr. and Mrs. Bertil Peterson, of the same city, are in charge of music and making themselves popular in that field. Mr. Peterson is reported an artist with the trumpet and all are invited to hear "Ladies Night" this evening; them each evening at 7:30 o'clock. Special nights this week include "Young People's Night" on Thursday and "Sunday School Night" on Friday. The public is invited to attend any or all of these meetings.

Good Looks

By Mullen Drug Co.

Good looks are a business and social asset to any man or woman. And good health is one of the prime sources of good looks.

To maintain your own good looks and health, visit your doctor at least once a year for a check-up. This habit, once established, should help to keep you in good health all the time. More than that, it will induce better health habits, and make you better able to meet the challenges of life.

When your doctor's recommendations include a prescription, take it to a trusted druggist for filling. He realizes the importance of even a simple prescription.

Stray Leaves From Notebook Of Reporter About Town

In talking with some of your friends who have been in England you may learn, as one of the surprising details of the pre-invasion period, that wood was rationed. Butt ends of logs, even only two or three feet long, were apportioned to furniture trades and weighed out in pounds to craftsmen. Dunning from our ships was sought with more personal interest than munitions in the cargo. These are unofficial details, but we have known, as early as the North African Campaign, that our troops were hoarding packing cases to fashion roughly into the simplest of furniture and living "luxuries". They were burning broken ends and slivers for warming fires.

In the light of such scarcity, we can afford to look a bit more seriously at our comparative wealth of wood resource. As a matter of fact, it is only comparative. Our remaining virgin stands, mostly in the Northwest, are inevitably being cut out. We are getting along largely on second-growth timber; good second-growth much of it, but not the lush virgin stands. Some of our best timber is relatively (economically) or actually inaccessible. It is estimated that the wartime train on forests in the United States in 1943 amounted to nearly 17 billion cubic feet, and exceeded total growth by 50 percent (nearly 100 percent in saw-size timber). LUDLOW

Ludlow, April 16—Moriah Lutheran church held its regular services on Sunday morning with a memorial tribute to President Roosevelt held near the close of the program. "Green Pastures" was sung by the choir with Miss Elizabeth Hess as soloist. Taps were played by Robert Johnson and James Nelson.

On Saturday afternoon an organ memorial program was given at the Lutheran church by the church organist, Mrs. Enoch Nelson. Favorite music of the president was used on the program. The church bell was tolled at four o'clock.

The Lutheran Brotherhood met on Thursday evening in the church parlors with Messrs Homer Gilfert and Charles E. Carlson as hosts. The meeting was opened by the president, Wilbur Johnson and Scripture reading and prayer was given by Rev. Hans Pearson. A business discussion followed. The following program was given: Reading, Leroy Johnson; saxophone and cornet duet, Thomas and James Nelson; reading, Clyde Gilfert; piano solo, Robert Johnson; harmonica solo, E. O. Nelson. The meeting closed with a program and a tribute to the memory of President Roosevelt. Lunch was served at the close of the meeting.

Regular services were held in the Covenant Mission church on Sunday evening with the Rev. Wilbert Nyline of Kane officiating.

The American Legion Auxiliary was entertained on Tuesday evening, April 10, at the home of Mrs. C. J. Carlson. The meeting was conducted by Mrs. Silas Johnson in the absence of the president. Regular business was discussed. Refreshments were served by the hostess at the close of the meeting.

A movie was shown in the Ludlow high school auditorium on Friday evening, with a borrowed movie machine. It is the hope of Ludlow school and other interested people to own a movie machine in the near future. Mr. Lyell B. Carr, supervising principal, ran the machine. There was a fair attendance.

Mrs. B. K. Connelly was hostess to the Ludlow Ladies' Aid on Wednesday afternoon at her home. The meeting was conducted by Mrs. R. E. Wenstran, president. A special project of this group is the making of an afghan composed of woolen squares which is to be given to veterans Hospital. Tea was served in the late afternoon.

The Sunday school children's work very hard and cover the town thoroughly in their zeal to help less fortunate children and the town responds. Mr. Olson would like to express his appreciation of the interest shown by everyone. The children with the largest results to date were Vivian Nelson, \$8.00; Shirley Swanson, \$6.95; Joanna Johnson, \$6.35; Margaret Ann Swanson, \$6.15, all of the intermediate department. Two highest in the primary department were Gary Swanson, \$5.65 and Doris Johnson, \$4.60.

The National Clothing Drive was a real success in Ludlow and the committee wishes to thank the entire town which so wholeheartedly responded to this drive. It seems impossible that such a small town could do such fine work. If all of the nation has had as good results as Ludlow, many a poor refugee or citizen of the war-torn areas will be clothed this winter.

Pennsy Develops New Engine Types For War and Peace

Five new types of powerful locomotives for swift freight and passenger runs have been developed by the Pennsylvania Railroad during the war period, with a sixth under consideration as an experimental type. Of the five which have been developed, three have actually been produced and are in service, while the others are under design.

"All the energies of this railroad," says the Pennsylvania in a summary of the new locomotives, "are bent to the task of carrying the war load. Traffic dwarfing all records of the past has naturally meant more engines and cars, just as, to the Army, war needs have meant more tanks and guns.

"It was important that the new engines should do the war work better than the old. That has meant research, experimentation and improved designs—all as contributions to war transportation. These, new, big engines will help to win the war and to win the peace; for the railroad is planning to meet the nation's peacetime needs better than ever before."

Descriptions of the new locomotives, both those which have already been produced, and those which are to be produced later, appear in the April issue of "Train Talks", the railroad's occasional publication for its patrons, which

is now being distributed to passengers.

Of the two new locomotive types now under design, the most striking is the gigantic 9,000 horsepower "Triplex," so called from its extremely unusual appearance. It will stretch out over nearly 137½ feet of track, and its main sections will be arranged differently from any locomotive ever before built. Coal will be carried in a compartment in the front. In the center will be a cab and boiler section, with cab ahead and smoke stack at the rear. The third section will be a large water tender. Power will be provided by two direct-drive steam turbines. The "Triplex" is intended for both passenger and freight service, to haul very heavy trains at high sustained speeds.

Also under design is a new electric passenger and freight locomotive to provide even greater power, dependability and efficiency than the famous GG-1's which have hauled the war load in the Pennsylvania's electrified territory. The new type under consideration for experimental purposes is a turbo-electric coal-burning steam locomotive of great power and speed, to be produced jointly with other railroad and equipment companies.

The three types which have actually been produced and are in operation include the T-1, a multi-

cylinder passenger and freight locomotive, capable of 100-mile an hour passenger speeds; the type Q-2, a multi-cylinder freight locomotive, fast and powerful; and type S-2, the first direct-drive steam turbine locomotive to be built in the country and meant for both freight and passenger work.

"Since 1939, the first war year," says the Pennsylvania, "this railroad has added to its equipment 137 coal-burning steam locomotives, 67 electric, 17 Diesels, 14,998 freight train cars, and 153 passenger cars."

43 YEARS of Fair Dealing

In 1902, an ambitious young man started a dry goods store in a Wyoming mining town. He was confident that hard work and fair dealing would make his store a success—and he was right.

The little store attracted people from miles around, as they learned that Mr. Penney sold dependable merchandise at prices as low as he could make them.

So the store grew . . . and grew . . .

into two stores . . .

into four stores . . .

into 8 . . 16 . . 32 . .

into SIXTEEN HUNDRED,

AND MORE . . .

—all in 43 short years!

But this is more than the success story of an energetic, ambitious American. Mr. Penney himself has said that business success is only the by-product of right principles . . . the determination to serve honestly and to share with fellow-workers and customers the rewards of hard work and loyalty.

Through all these years . . . fat years and lean . . . years of war and years of peace . . . the Penney Company has progressed unceasingly: by Fair Dealing!

Mrs. Winger Reelected President of Blue Stockings For Another Season

Mrs. Robert Winger was re-elected president of the Blue Stocking Club for another season in a brief annual business meeting held at the YWCA activities building on Tuesday afternoon.

The meeting followed the annual luncheon, arranged by Mrs. H. H. Barr and Mrs. Burr Walker and served at a table attractively arranged with pastel sweetpeas, matching candles and garlands of bridal wreath. Mrs. W. E. Lutz gave the invocation.

After Mrs. Winger had welcomed the guests and thanked the luncheon committee, she called for reports of the secretary, Mrs. George Calderwood, and the treasurer, Mrs. Brackett Ayres, thanked her officers and committee heads for their season's work, and read a letter from the Federation president concerning the Dumbarton Oaks plan and the international monetary agreement. Members voted to hold meetings next season at 2:30 in the afternoon.

For the musical program, Mrs. Harriett Wilkins played three dances in the Russian vein by Shostakovich.

Mrs. W. R. Carlin presided for the election of officers selected by the nominating committee and reported by Mrs. P. S. Tarbox. The entire slate was re-elected for another year as follows: First vice president, Miss Ethel Morris; second vice president, Mrs. Norbert Peterson; secretary, Mrs. George Calderwood, and treasurer, Mrs. Brackett Ayres.

Committee heads announced for next season by Mrs. Winger were Mrs. Peterson, press; Mrs. Barr, legislative; Mrs. F. L. Plummer,

Mrs. Edith Smith and Miss Mabel Higgins, program.

The meeting was adjourned after some discussion concerning program desires for next year.

Mrs. Charles Moore extended an invitation for members to hold the September program-meeting at her home in Garland.

Since it was the birthday anniversary of Mrs. J. W. Kitchen, a member confined to her home by illness, members remembered her with the lovely bouquet from the table's center.

Freshman Girls' Club Is Preparing Tea-Fashion Show

A "special communique" received this morning from the Freshman Girls' Club of the YWCA has this important news to make public to friends of the organization:

Spring is here once again and we, of the Freshman Girls' Club, feel in the mood for a style show. How about you? Under the direction of Mrs. Hugh Logan, we are having a tea and fashion show at the Y. W. C. A. activities building on Saturday, May 12th.

Committees and models have been chosen and all are working hard to make the affair a success. The girls will model their own clothes, and will choose costumes for every hour in the day. We want all of our mothers and friends to come, so please don't disappoint us! And... wish us luck!

A musical program is being planned for added enjoyment and a very special surprise will be announced in a few days.

'Cinderella Ball' At Country Club

Plans are under way for the first social event of the season at the Conewago Valley Country Club. A "Cinderella Ball" will be held Saturday, May 5th, at the club house.

Chairman for the affair is Mrs. Frances Bates, with Mrs. Thomas Creal, Mrs. Robert Kopf and Miss Ann Walker as her committee.

Due to the mid-night curfew, dinner will be served earlier and music for dancing until 12:00 will be furnished by "Those Four Guys".

Members are asked to watch for announcement of time and reservation information.

Casces and Moody Rites in Capital

A simple ceremony performed at 4:30 p. m., Thursday, April 12, in the St. Francis de Sales rectory in Washington, D. C., by Rev. Walter Reed united in marriage Miss Marion Colleen Moody, daughter of Mr. and Mrs. Earl Kracke, 4905 Riverdale road, Riverdale, Md., and Raymond Edward Casces, son of Mr. and Mrs. Louis A. Casces, of Brentwood, Md. Attendants were Miss Clara Mae Griffin, of Alexandria, Va., and Louis A. Casces.

The bride wore black accessories and a corsage of deep pink roses with an aqua frock and Miss Griffin was attired in gold, with black accessories and corsage of gardenias.

The wedding reception followed at the bride's home in Riverdale, the newlyweds leaving there for a Pennsylvania and Canadian wedding trip. After April 23 they will be at home to their friends in Riverdale.

Mrs. Casces is a graduate of the Hyattsville, Md., high school and Mr. Casces was graduated in 1944 from Warren High School. Both young people are employed by the U. S. Department of Agriculture in Washington.

Mrs. and Mrs. Bert Albaugh, 2013 Pennsylvania avenue, east, announce the marriage of their granddaughter, Miss Frances Shellmadine Jackson, to Pfc. Charles W. Mercer, son of Mr. and Mrs. Spencer Mercer, Moultrie, Ga., Route 2.

The marriage was solemnized on March 27 at York, S. C. The bride chose a suit of blue with matching accessories and corsage of red roses.

Mrs. Mercer was formerly employed here by the Bell Telephone Company, Pfc. Mercer attended Moultrie High School and has recently returned after spending 20 months in the South Pacific. They have already left for Miami, Fla., where he has been assigned for duty.

Mrs. and Mrs. Robert C. Heeter, of Sigel, Jefferson county, announce the marriage of their daughter, Ann, to Pfc. James Waples, of Warren, the ceremony having been performed at two o'clock last Saturday afternoon.

The bride wore a suit of navy and a corsage of pink carnations. Attendants for the couple were Mr. and Mrs. Robert Loose.

Having just returned from 32 months' service in the European theatre of operations, Pfc. Waples is spending a 21-day furlough with his family before reporting to Santa Ana, Calif., for further assignment.

Egad! Another baseball campaign is upon us and I'm still wearing my football helmet! Quick, Jason, the moth balls!

Speaking of moth balls, my word! As I scan the rosters of the major league clubs, I behold the names of certain aged athletes I thought had been tucked away in the camphor and stacked on the shelf many months ago.

But this decrepitude, I perceive, is offset by the influx of a group of hopefuls fresh from the fourth grade. How! This should be a jolly season, with

both the orphanages and old share of diamond gladiators.

You may recall I won some fame as a prognosticator a few years back when I selected both St. Louis team to win the pennants. Of course they didn't win that year, but several years later, er, much to the surprise of the wisecracks, my prediction was fulfilled. Not bad, eh?

This year I am selecting the Detroit Tigers to win the American League pennant in a photo finish with the Clevelanders. The same kind of finish is augured in Frisch's ferocious Pittsburgh Pirates scoring by a nose.

Here are the rankings and, like my good friend Bill Klem, the Old Arbitrator, I was never wrong in my life.

AMERICAN LEAGUE

Detroit 1st, Cleveland 2nd, New York 3rd, Boston 4th, St. Louis 5th, Philadelphia 6th, Washington 7th, Chicago 8th.

Hey, there, boy! Another bag of peanuts, please.

NATIONAL LEAGUE

Pittsburgh 1st, St. Louis 2nd, Chicago 3rd, Cincinnati 4th, Philadelphia 5th, Brooklyn 6th, Washington 7th, New York 8th.

Prizes were awarded last night to individual and team winners of the City League, Frank Rossell pacing the individual prize-winners and Frank Fadale's crew coping team honors.

Rossell led the league in averages for the second straight year, and was also one of the main reasons for Fadale's winning. The awards were as follows:

Mort Cooper Discusses Salary With O'Connor

Chicago, April 18—(A)—Morton Cooper, St. Louis Cardinals ace pitcher, had an appointment today (2 p. m. C.W.T.) with Leslie M. O'Connor, chairman of baseball's advisory council, to discuss his salary troubles.

O'Connor said Cooper had requested a hearing but there was no indication that his brother and battery mate, Walker, would be present. The brothers are after salary increases from \$12,000 to \$15,000 and have submitted their case to President Ford Frick of the National League.

Walker Cooper played in the season opener here yesterday. The Cards are idle today.

VET THROWS FIRST BALL

Philadelphia, April 18—(A)—A sailor who lost his leg when a Japanese plane attacked his destroyer in the Pacific threw out the first baseball to inaugurate the 1945 Philadelphia baseball season yesterday in the game between the Philadelphia Athletics and Washington Senators.

The sailor was Waterlander 1/c Nicholas F. Rodecker, of Springfield Gardens, N. Y.

By JACK HAND

(Associated Press Sports Writer)

Nine straight opening day victories for the St. Louis Browns went into the record books today as a companion piece to their 1944 feat of coping a first American League pennant.

Luke Sewell's gang took up where they left off last year by knocking off Detroit, a habit that paid big dividends in winning their first flag when they did it 13 times in 22 starts.

Hal Newhouser was the victim of the Browns' 7-1 uprising as Sig Jakucki, tomato-faced right-hander, allowed only six well-scattered hits.

One-armed Pete Gray broke into the majors for the Browns with a single and was robbed of a sure double on a circus catch by Roger Cramer.

Standout individual performance of the opener was turned in by the New York Yankees' Russ Derry, starting his first full season in the big show. Derry, a slim Mill Grove, Mo., farmer, belted two homers in his club's 8-4 decision over the Boston Red Sox.

The second came in a seven-run seventh inning rally with the bases jammed.

George Metkovich, Sox first baseman, set a new league standard and he will not be proud of when he committed three errors in that same seventh frame. The first two were on the same play when he missed a baserunner going to first and threw wildly to the plate letting two men score. The third set the stage for Derry's grand slam clout.

Starter Atley Donald was credited with the win over Rex Cedi, although neither was around at the finish.

Frankie Zak of Pittsburgh provided the day's oddity during the game with Cincinnati, won by the Reds in the eleventh, 7-6, with two on, Zak's shoestring came untied and he asked and received a call of "time" from umpire Ziggy Sears.

Fitcher Bucky Walters didn't hear the ump and dished up a home run ball to Jim Russell. But it was all disallowed.

Dain Clay boosted the Reds into the game with a bases-loaded circuit clout and won it with a single in the eleventh in Cincinnati. Reliever Hod Lisenbee was the winner over Rip Sewell.

Mel Ott set six new records while his New York Giants ruined Boston's 11-6. Starting his 20th season with the same club, Ott broke a mark every time he scored or batted in a run, drew a walk, slammed a long hit or picked up an extra base on a long smash.

Bill Nicholson drove in one run and scored another in the Chicago Cubs' 3-2 margin over the St. Louis Cardinals behind Paul Derringer's effective hurling. The Cubs got only four safe blows off Ted Wilks and Bud Beyerly, the loser.

Veteran Curt Davis and Rookie Mike Sandcock teamed up for Brooklyn's 8-2 decision over the Phillies and Ken Raffenberg.

Davis allowed eight hits and came through with a homer. Sandcock slammed three hits.

Joe Kuhel and Rookie George Binks each connected safely for times in Washington's 14-8 smothering of Philadelphia's Buck Newsum. The Senators stole five bases to make it an easy job for Dutch Leonard.

Timely Chicago hitting, combined with Cleveland defense jitters, gave Thornton Lee the verdict over Chief Reynolds in a 5-2 game at Cleveland. Neither pitcher went the route.

Zurita Risks Title Tonite With Angott

Mexico City, April 18—(A)—Making his first title defense since he beat Sammy Angott for the crown more than a year ago, Juan Zurita risks his NBA lightweight championship tonight against Ike Williams of Trenton, N. J.

Mexican sports fans are looking forward to watching their hometown champion in action with the same enthusiasm as the regular Sunday bullfights. And that, senior, is something.

A near capacity crowd of some 30,000 is expected to watch the scrap in the Mexico City bullring. On this basis, with ringside seats priced at \$20, Promoter Sam Ross' estimated gross receipts at \$100,000.

Although Williams, a sharp puncher who knocked out Dorsey Loy in Philadelphia before coming south of the Rio Grande, has gained more favor as fight time approached, Zurita remained the favorite.

Zurita's speed was expected to help him counter Williams' punching power. He also is expected to be more at home in Mexico City's high altitude over the long 15-round route.

LESS ATTENDANCE

New York, April 18—(A)—A total of 101,593 fans attended yesterday's eight opening games of the major league baseball season, a drop of 19,743 from the 121,336 who turned out for seven games on opening day a year ago. The biggest gathering, 30,069, was at Crosley Field, Cincinnati for the Pirates-Reds clash.

NOTHING LIKE OLD AGE

Philadelphia, April 18—(A)—Mrs. Katherine Walker, 60-year-old grandmother who has been competing for 40 years in bowling tournaments is one of the entries in the Philadelphia Record's seventh annual Bowling Sweepstakes.

WHS Cagers Awarded 'W's And Sweaters

Presentation of letters and sweaters to members of the championship 1944-5 basketball team was made this morning in an assembly at the High School. Joe Scallise, captain of the team and who also received honorable mention on the AP all-state crew, presided at the meeting.

"W" letters were awarded to Joe Scallise, George Lucia, and Bob Hammerbeck, who is now in service. Those boys had previously received sweaters. Both the sweaters and letters were awarded to the following: Alan Babcock, Jack Eaton, James Farrell, Vincent Gray, Tom Juliano, Ray Reed, Jim Scallise, Neil Simmons, and Kilar MacDonald, manager.

Mentor Joseph A. Massa loses the services of all of the boys except Babcock, Eaton, Gray, Reed, Jim Scallise, and Neil Simmons. Gray and Simmons return but for one semester next season.

Behind the Lines

Following the return of students to their classes Monday, the Meadville School Board acceded to a request by a newly-formed parents' association and have agreed to meet with these parents Friday night. Among those parents was Dr. J. E. Cavelli, of Allegheny College. The tide has passed, but just temporarily. The removal of Harry Dennison as the Meadville court mentor has further aroused the ire of the Meadville citizens, who are disgusted with the turn of events at the Meadville High School.

Warren citizens can be thankful that they live in a town where athletics are at a high point, and where the management of such is well in hand.

Sharpsville town officials were so pleased that Paul Davison, high school basketball forward, made the all-state basketball team they passed a resolution praising the young junior. The Dragons will have him to contend with again

next year, although his Warren showing was way below par. . . . LeRoy (Hank) Day has been given a new five-year contract as Farrell High football coach. He will receive \$2,000 in addition to his regular teaching salary. Get that, \$2,000. Wouldn't it be nice if coaches throughout the nation, and in Warren also, were paid well? . . . It looks as though John Trevenen and Company are going to run off with all the honors in the Conewango Bowling League. His crewmates are holding that top position with all they've got. . . . He's also a golfing aspirant. Trevenen heads the C. V. C. C. golfing committee for this year. . . . All the "bunk" that the racing ban would be called off on or before May 10 might as well be shoved aside for a long, long time. Even if the ban were loosed, the law prohibiting use of gasoline to attend large group meetings would prevent any running of the races.

Lyle Parkhurst, the referee who called all the fouls in the Warren-Jamestown second team game at Jamestown last winter, is expected to be one of the big guns on the mound for the Buffalo Bisons. Parkhurst hurried for the Falcons last season. . . . The Corry Beaver Club, the technical name for the High School's booster club, is planning to spend upwards of \$1,000 for equipment and sending this year's gridders to camp. It might be a good idea to get a coach before they start making too many plans.

Interest in the YMCA-Church Muttball League is increasing, and very much so. Last season's loop was so successful that initial plans for the 1945 season are being formed. Among the teams planning to enter again are St. Joseph's, last year's winner, First Baptists, Grace Methodists, First Methodists, and Sylvania.

Ruinous Blow Delivered At the Luftwaffe
 (From Page One)
 Specific targets of today's American assault were not identified immediately.

It was the third straight day of hunting by U. S. fighter fleets writing off the German air force. Hundreds of German planes still were jammed on airfields, most unable to fly for lack of fuel.

The combined raid on the German capital began about 11 p. m. when RAF Mosquitos sailed in with their nightly load of 2,000-pound bombs. Just about the time Berliners were coming from their shelters a formation of Russian planes dove in from the east.

A recapitulation showed that Allied pilots destroyed at least 453 German planes yesterday, bringing to nearly 3,000 the total knocked out in 11 days.

TRUCK LOADS FIXED
 Harrisburg, April 18.—(P)—
 Trucks may continue to carry a maximum load of 45,000 pounds in Pennsylvania under a bill passed by the senate yesterday and sent to Governor Martin. The 1943 legislature boosted the top load from 39,000 and the bill passed made it permanent.

TREASURY BALANCE
 Washington, April 18.—(P)—
 The treasury position April 16: Receipts \$89,815,282.93; expenditures \$228,807,123.77; net balance \$12,879,245,971.51; total debt \$235,353,494,488.00; increase over previous day \$14,081,208.03.

Eisenhower's Troops Along Entire Front Gain Strength In Drive To Jbin Russians

(From Page One)
 Belgium, Holland, Luxembourg, Germany and Monaco. Some of Eisenhower's forces in the maritime Alps may have crossed the Italian frontier as well.

The British fought through the Bremen suburbs and advanced to within 22 miles of the greater port of Hamburg in exploiting a wide break-through of German lines before the lower Elbe.

The Ninth army slightly expanded its bridgehead east of that last river before Berlin, 45 to 52 miles away, and fought through the streets of Magdeburg.

Duesseldorf, greatest city of the Ruhr, was falling to the 17th Airborne Division. The Ruhr pocket, which has yielded 266,806 prisoners was stamped out except for 125 square miles about Duesseldorf.

Supreme headquarters announced that 2,055,575 Germans had been captured in the west since D-Day. Some 149,000 yielded yesterday to run the April total above \$75,000.

Halle and Dessau were falling to the First army, which was closing up the southwest portion of a gigantic siege arc around Berlin, 52 miles from the nearest of Lt. Gen. Courtney H. Hodges' troops.

Chennitz was under frontal assault from Third army troops after its commander refused a surrender ultimatum.

Canadians closed to within two miles of the Zuider Zee on the south and advanced in breached dike floods toward Utrecht, Amsterdam, Rotterdam and the Hague. Up to 200,000 Germans might be trapped in Holland.

Another trap in the Harz mountains was reduced to about 175 square miles, half its original size, by First and Ninth army gains.

Hundreds of miles behind the main front, the French mopped up the mouth of the Gironde estuary, pressing the last Germans barring access to Bordeaux back against the Atlantic. Rear Admiral Michiels, commander at captured Royan, surrendered.

Another "forgotten front" flared into action in the Maritime Alps, where French Gen. Molle's 27th Alpine Division captured several peaks and entered Briel, near the Italian border.

The destruction of the last of the Luftwaffe continued with 451 enemy planes destroyed yesterday for a total of 4,150 this month.

The North Sea port of Emden was almost within small arms range of the Polish First Armored Division on the Ems estuary opposite the city. Stuttgart in the south was outflanked by the French army which was rolling up the last of the Siegfried line in the Black Forest. The French moved 25 miles southwest of Stuttgart.

Nine Russian Armies March Upon Berlin
 (From Page One)
 Frankfurt also was reported.

Front dispatches from the Red army dated "near Berlin" said Russian troops carried banners ready to nail to flagpoles in the city.

Transocean said the latest Russian offensive hit on a line from Schwedt, 43 miles northeast of Berlin, to Greifenhagen, 12 miles south of Stettin, and was lunging toward the Stettin-Berlin railway.

Konev's push west from the Neisse spread along a 45-mile front from Forst to Gortitz, transocean said, reporting terrific fighting and heavy tank battles "in the forest country southeast of Cottbus" on the Spree. Konev's troops are 75 miles or less from Americans pushing toward Dresden.

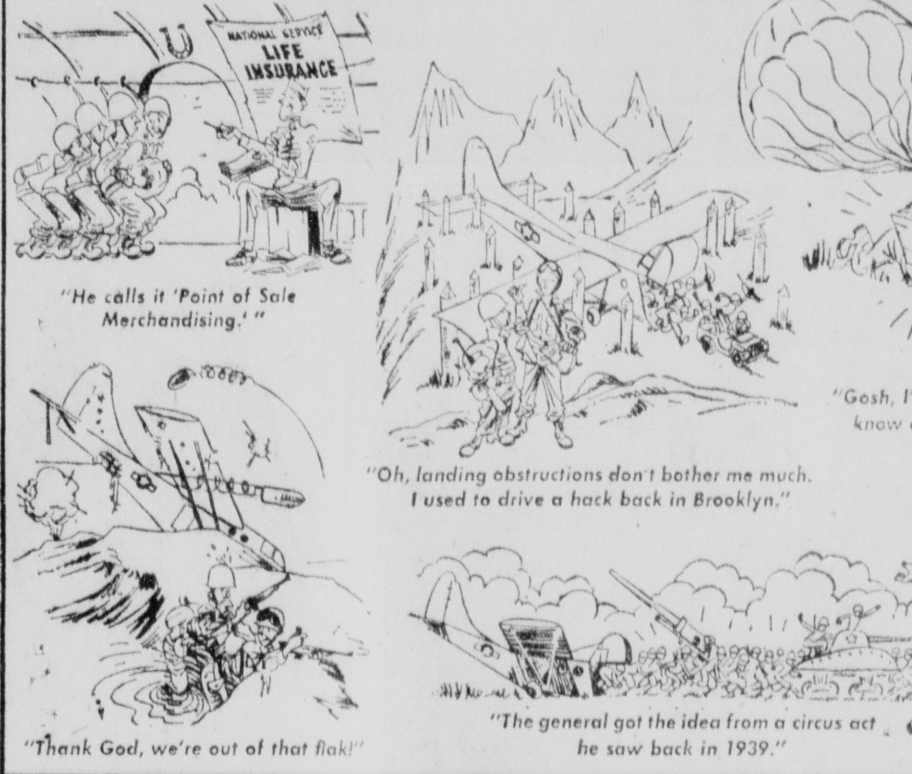

Other Russians were ripping the Nazi line along the Elbe river between St. Poelten and Linz, and one column was reported at the outskirts of Melk on the Danube, 40 miles west of Vienna.

The German transocean agency said one of two major spearheads in the Neisse river sector was headed from Muskau toward Spremberg on the Spree river. The other was said to be aimed through Niesky, 11 miles northwest of Gortitz and 48 miles from Dresden.

A junction of Russian and American forces in this part of Germany would cut the Berlin defenders off from any retreat southward into the enemy's Bavarian mountain redoubt.

FUN with the TROOP CARRIERS

TROOP CARRIER OUTFITS do their share of the fighting, but can take time out to laugh. Capt. William T. Lent did these sketches which appeared in Air Force, official service journal of the U. S. Army Air Forces.

Pyle Killed By Japanese Machinegun

 had been sleeping in Italy was hit by an enemy bomb shortly after he had switched beds a year ago last March. He and four other newspapermen, including George Tucker of the Associated Press, escaped with light cuts.

Again, during the battle of the breakout in France, he was almost killed by Allied bombers at the time Lt. Gen. Lesley McNair was killed.

Like other war reporters, Pyle spent much of his time living in the field with the troops. During the fighting in Tunisia he went four and five weeks without a bath, sleeping on the ground and on farmhouse floors, under jeeps and in foxholes.

Pyle was born August 3, 1900, on a farm near Dana, Ind. His father, William C. Pyle, still lives there. His widow, the former Geraldine ("Jerry") Siebolds, of Stillwater, Minn., lives in Albuquerque, N. M., where they built a home a few years ago.

He encountered the war in 1940, when he went to London in time to be in on the great fire bombing at the end of December.

He accompanied Allied troops on the invasions of Africa, Sicily, Italy and France. Last September he returned to this country for a rest before leaving for the Pacific early this year.

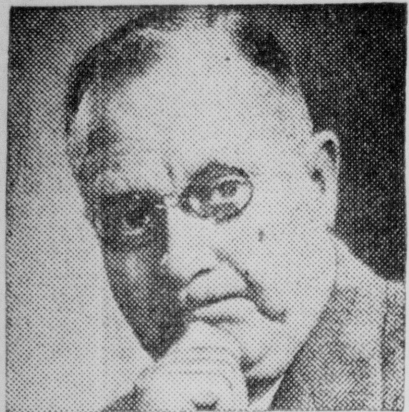

In 1944 he was awarded a Pulitzer Prize for distinguished correspondence during the preceding year. He also received the Purple Heart for wounds incurred in action on the Anzio beachhead.

He was the author of "Ernie Pyle in England", "Here Is Your War" and "Brave Men."

Resort Houses Exempt From Rent Rulings

Resort housing which is rented purely on a seasonal basis will again be exempt from the Rent Regulations during the summer of 1945, Frank S. Anderson, Rent Director of Erie and Warren counties, announced today.

Cottages, rooms, and other housing accommodations must meet two tests to qualify for such exemptions. They must have been customarily rented or occupied on a seasonal basis prior to October 1, 1944 and not rented during any portion of the period beginning on November 1, 1943, and ending February 29, 1944. The exemption of seasonal housing from the Rent Regulation will apply only from June 1, 1945 to September 30, 1945.

While the exemption of resort housing for the summer of 1945 is similar to that which existed in the summers of 1943 and 1944, a new amendment requires that such landlord claiming exemption file a separate report form for each address in which exempt housing accommodations are located. Such report form must be filed with the Erie Office not later than May 31, 1945.

Report forms are now available at the Rent Office. They are much simpler than the registration form required for ordinary housing. The staff of the Rent Office will assist any landlord who wishes help in filing such report forms.

Anderson further indicated that landlords renting housing accommodations on a yearly basis, which were formerly rented only during the summer resort season, must be registered on the regular registration forms. Higher rates may not be charged by such landlords for the summer season than for other months of the year unless the landlord's rights to such rates have been established by landlord's petition or the rent on the date determining the maximum rent permitted such collection.

"JOIN THE NAVY IN FAT SALVAGE," SAYS ADMIRAL

Real Need For Fats and Oils to Help Make Indispensable Products Seen By Rear Admiral W. J. Carter of U.S.A. Supply Corps

"It is the policy of the Navy to salvage used fats from its cooking operations whenever this can possibly be done," Rear Admiral W. J. Carter, Supply Corps, U. S. N. declares.

Rear Admiral W. J. Carter

"Last year the Navy salvaged millions of pounds of otherwise unusable fats for war manufacturing purposes. From these fats are made such important items as soap, protective coatings, indispensable rubber products, explosives, pharmaceuticals and many other things. There is a very real need for the fats with which to manufacture these products—and the Navy is glad to do its part in collecting all it can. We invite you to join the Navy in salvaging all of the used fats you can in your own home. The need is great and the task is small, though very important."

Dawn of New Day Foretold In Article Written in 1935

(Written March 26th, 1935, by Mrs. A. G. Mahaffy)

In every crisis God has raised up a man to lead his people out of darkness into light; and in the minds of the majority of Americans we believe Mr. Roosevelt to be that man.

With the ancient and eternal truth upon his lips that "where there is no vision the people perish," he has seen beyond the fog, knowing that nothing splendid has ever been achieved except by those who dare believe that something outside themselves was superior to circumstances—knowing that if the tire goes out it will come in again. With that sure knowledge

he has forged ahead. We have been brought to our knees by all we have suffered during the last five years and now we begin to see as through a glass darkly, the dawn of a new day upon whose threshold even now we stand.

The great developments now under way will bring that condition while all may live more fully—and we will emerge a nation of really free men. Until then let us say with the street cleaner in "Seventh Heaven" who, looking up from his attic window exclaimed "I Work in the sewer but I live among the stars."

where she is convalescing. Mrs. Burt Graham, Jr., has returned to her home here following a visit with friends in Corry.

Miss Ellen Davis was hostess to the members of the Woman's Auxiliary on Wednesday afternoon. The society now are endeavoring to raise funds to have the manse painted.

Services were held in Garland's churches on Easter Sunday. Several infants were baptized in the M. E. church.

Mr. and Mrs. Ray Cartwright of Corry were in town calling on relatives and friends Wednesday. They were former Garlandites.

A beautiful red cardinal, who seems to have settled on the window sill of Norman Taylor's store, is attracting much attention. The bird has been fluttering on an apple limb near the window and on the window sill for about two weeks. Late in the evening and early in the morning the bird is at his post, his cheerful call being heard for some distance.

Mrs. Harry Richards who has been on the sick list for some time is planning to enter the hospital for an operation. Her friends hope she will be much improved in health.

Friends of Robert Boyce will be interested to learn of his recent marriage to Virginia Fitzgerald, daughter of Mr. and Mrs. Wayne Fitzgerald of Warren. Robert spent much of his early life here and the family is well known in Garland and vicinity as he is a son of Mrs. Elmer Wedlock and a grandson of Mr. and Mrs. Fred Bogart, formerly of this place. His many friends in Garland extend their best wishes for happiness.

EISENHOWER'S TROOPS ALONG ENTIRE FRONT GAIN STRENGTH IN DRIVE TO JOIN RUSSIANS

American First Advances to Within 4,000 Yards of Center of Surrounded Leipzig as Seventh Clears Half of City of Nuernberg

RUHR POCKET IS ALMOST ENTIRELY STAMPED OUT

By JAMES M. LONG
Paris, April 18.—(AP)—The Third Army bisected Germany today, invading Czechoslovakia.
As Lt. Gen. George S. Patton's troops crossed the Czechoslovak frontier, the First Army stormed to within 4,000 yards of the center of surrounded Leipzig and the Seventh Army cleared half the Nazi city of Nuernberg.
All along the front, Gen. Eisenhower's armies were gathering strength for the final drive eastward to meet the Russians.
The Ruhr pocket, which has yielded 309,484 prisoners, was stamped out except for 125 square miles around Duesseidorf. Another 50,000 were expected to surrender today, a dispatch from Gen. Omar Bradley's headquarters said. The German calamity in the Ruhr may yet surpass the debacle of Stalingrad. The Germans lost 330,000 in killed and captured alone three years ago at Stalingrad in one of history's decisive battles. The Allies may have as many as 359,000 prisoners from the Ruhr by night, an annihilation pocket in which the enemy lost countless dead.
The Ninth Army captured Magdeburg (334,358), securing a firm anchor on the Elbe river opposite Berlin. The industrial and commercial center was the 20th largest city of Germany before bombs and shells reduced it to the smoking ruins which the Hell on Wheels (Second Armored) and Old Hickory (both) divisions captured.

By JAMES M. LONG
Paris, April 18.—(AP)—Tank-riding U. S. Third Army infantrymen invaded Czechoslovakia today, bisecting Germany with a plunge into the Sudetenland, which Hitler annexed to the Reich after Munich in 1938.

The 90th Division invaded Czechoslovakia northwest of Asch in the northwestern tip of the country. The Americans had dashed eight miles from the area of Hof, which is about 10 miles south of captured Plauen.
The last lap of the drive to cut Germany in two was made without opposition except for a brief flurry of gunfire in the German village of Prex, less than a mile from the border, a front dispatch said.
The halving of Germany was of more geographical than immediate military importance, because the enemy still has circuitous contact between north and south Germany through the mountains of Czechoslovakia.
Censors would pass only the bare report that Czechoslovakia was entered.
(Presumably, the invasion was in the Plauen area, where troops of the 90th and 26th Divisions last were reported within four miles of the frontier.)
Eastern Czechoslovakia has been deeply incited by the Russians, who today were fighting within sight of the industrial city of Bruenn. It was the seventh, or perhaps the eighth, country invaded by Gen. Eisenhower's western armies. The others were France, (Turn to Page Nine)

THEY'LL BE SURPRISED
London, April 18.—(AP)—A Japanese broadcast boasted today that the Japanese soldier is a better fighter than the Nazi superman and would prevent Allied troops from landing in Japan, even though the Germans could not keep the Americans and British from landing in France.

Administration Speeds Up Health Program Legislation

Harrisburg, April 18.—(AP)—The administration today speeded to ward enactment legislation providing \$3,400,000 to finance health programs in Pennsylvania as a result of threatened withdrawal of federal funds.
The appropriation was pushed into position for a house vote after exchanges over the federal anti-politics Hatch act and status of Dr. A. H. Stewart, state secretary of health.
Dismissal of Stewart for political activity was recommended by the U. S. Civil Service Commission under Hatch act provisions.
Notice has been served that \$20,000—twice the amount of his salary—will be withheld from federal grants unless Governor Martin complies.
Rep. Reuben E. Cohen (D-Phila.) amended the appropriation bill with Republican majority consent, to include rheumatic fever among the diseases for which the funds could be used.
He was voted down 104-88 on a move to strike out a provision that the commonwealth could decide if any part of the program be financed out of state funds.
Along with rheumatic fever, the funds would be used for public health service, venereal disease control, aid to crippled children and maternal and child health programs now partially financed by federal aid.

President Being Urged To Delay Meeting With Allied Leaders Until After Parley

Washington, April 18.—President Truman is being urged to delay a meeting with the heads of major Allied states until the San Francisco conference has acted on a world peace-keeping organization.
Although Mr. Truman said at his first news conference yesterday he would be very happy to talk soon with other members of the Big Five, many in Washington felt that any such coinciding conclave might prove embarrassing to the United Nations delegates.
As an example, Senator George (D-Ga.) told a reporter that, while he thinks it "highly desirable" for Mr. Truman to sit down with the world leaders as early as possible, he believes the San Francisco meeting would stand still while they talked.
"Any such conference certainly would overshadow what was being done at the United Nations meeting and might lead to the belief that the real issues were being settled by the heads of the state and not the delegates," he said.
Mr. Truman left no doubt that he is placing full confidence in the judgment of this country's eight delegates, headed by Secretary of State Stettinius. He told newsmen they are competent negotiators, adding that he does not intend to go to San Francisco but will stay at his desk where he ought to be.

The free hand the president has given them lent added weight today to the American delegates' decision to support changes in the Dumbarton Oaks peace formula which would permit the proposed international assembly to recommend—but not enforce—postwar treaty revisions.
The delegates met today for final approval of a draft of agreed changes, including amendments calling for the forthcoming peace to be based upon justice.
At that session they had before them the unsettled question of trusteeships for reconquered Allied possessions and lands taken from the enemy.

Ruinous Blow Delivered At The Luftwaffe

London, April 18.—(AP)—U. S. heavy bombers today battered rail yards at Traunstein in southeastern Germany less than 25 miles from Hitler's mountain stronghold at Berchtesgaden.
The force hitting Traunstein was part of a fleet of more than 750 Flying Fortresses and Liberators which attacked 10 rail objectives in southern Germany and western Czechoslovakia.
Another target was Rosenheim, just north of the Austrian border and within 40 miles of Berchtesgaden.
Rocket-firing American Thunderbolts based in Italy attacked Berchtesgaden itself last Feb. 20. Close to 1,000 RAF and Canadian bombers, following up a night attack on railway yards near the Czechoslovak frontier, made a concentrated attack in clear weather today on the German North Sea naval base of Helgoland. A number of German warships were believed to be hiding there.
Fighters escorting the American heavy bombers raided airfields in southern Germany and western Czechoslovakia in another ruinous blow at the diminishing German air force.
During the night, Berlin was pounded by the first coordinated double blow from British and Russian bombers. Other night-flying planes hammered Nazi escape railroads into Czechoslovakia and airfields in southern Germany.

7,000 Rescued As Doughboys Enter Baguio

By FRED HAMPSON
Manila, April 18.—(AP)—American soldiers fought inside the Japanese stronghold of Baguio today as Gen. Douglas MacArthur announced the rescue of more than 7,000 civilians from the once gay, attractive summer capital of the Philippines.
From a line on the northwest outskirts, four miles from the center of the ruined city, Doughboys of Maj. Gen. Percy W. Clarkson's 33rd Division encountered heavy fire from guns dominating this approach.
The battle increased in intensity as the Japanese indicated they intended to defend their mountain citadel to the west, heralding the approach of the wet season, hampered movements on newly-bulldozed roads.
Igorote mountaineers were credited with saving many of the 7,000 civilians, mostly Filipinos.
Baguio, Japanese last-stand headquarters, was also the last stand of their Filipino puppet government, headed by Jose Laurel. Refugees from the city confirmed reports Laurel had fled to Japan, possibly with Gen. Tomoyuki Yamashita, Japanese commander-in-chief in the Philippines.

Airfields On Kyushu Island Are Attacked

Guam, April 18.—(AP)—Superfortresses delivered another heavy bombing on six principal airfields on the southernmost Japanese mainland island of Kyushu today—even before another large force had returned from the same targets.
Probably around 150 B-29s, flying from Marianas, again wrecked buildings and cratered runways of airfields from which Japanese planes have attacked Okinawa, 325 miles to the south.
Six task groups of B-29s took off for the mission while six earlier ones were winging their way back. The attacks, 17 hours apart, supplemented carrier plane strikes against Kyushu Sunday and Monday.
It was the fourth assault within five days on the Japanese homeland. The Tokyo area, including Kawasaki, was hit by Superfortresses Sunday and Monday, and photographs revealed today that eight and one-tenth square miles of industrial district were burned out in the Monday raid.

WANTS TO GO HOME

Harrisburg, April 18.—(AP)—The general assembly is urged by M. Harvey Taylor, president protem of the senate and Republican state chairman, to resolve its differences and wind up the 1945 session.
Agreement is needed, he said in a statement, on workmen's compensation, occupational disease benefits, stream cleanup, housing, slum clearance, teachers' salaries and school grants.
The red-haired Miss Berry asks \$2,500 monthly for support of Carol Ann. Chaplin has paid her more than \$18,000 for attorney fees and still pays \$75 weekly under a pre-trial agreement.
His attorney, Charles E. Millikan, said he had not yet decided whether to appeal the verdict. He declined to say, until after the support hearing, whether he would move for a new trial.

WAR PRISONER MEDAL

Johnstown, April 18.—(AP)—A special medal for American service men who have been prisoners of war was recommended in a resolution adopted last night by the Cambria County American Legion Committee, representing 18 posts and 3,500 members. The committee also resolved against any form of V-E celebration except prayer and hard work.

PRILE KILLED BY JAPANESE MACHINE GUN

Famed War Correspondent Hit While Standing With Regimental Officer On Ie Jima

MOURNED IN CAPITAL

By LEIF ERICKSON
Guam, April 18.—(AP)—Ernie Prile, the GI's columnist, was killed today by Japanese machinegun fire while standing beside a regimental commanding officer of headquarters troops when a Japanese machinegun opened fire.
Fleet Adm. Chester W. Nimitz' headquarters said Prile was killed instantly by a surprise machinegun attack at 10:15 a. m. on the southern side of the island, while observing the advance of 10th army troops who had invaded the island Monday.
Prile when hit was standing with a regimental commanding officer of headquarters troops when a Japanese machinegun opened fire.
The commanding general of the Ie Jima invasion troops officially reported Prile's death as follows:
"I regret to report that War Correspondent Ernie Prile, who made such great contribution to the morale of our foot soldiers was killed in battle on Ie Jima today."
In Washington his death was announced by Secretary of the Navy Forrestal and President Truman issued a statement of condolence.
"The nation is quickly saddened again by the death of Ernie Prile," Mr. Truman said.
Forrestal said Prile was killed instantly by Japanese machinegun fire while standing beside a regimental commanding officer.

Nip Air Force Loses Over 2,280 Planes

By AL DOPKING
Guam, April 18.—(AP)—More than 2,280 Japanese planes—a sizeable chunk of the Nipponese air force—were destroyed by American and British carrier planes and anti-aircraft gunners in the last month in support of the Okinawa invasion.
This staggering toll was announced by Adm. Chester W. Nimitz today amid increasing indications that Japan's fierce air attacks on the American invasion armada off Okinawa heavily drained the enemy's supply of planes and pilots.
The planes were knocked out of enemy air fleets attacking the Americans on and off Okinawa, and also in U. S. and British carrier raids on the Ryukyus and the Japanese main islands.
Destruction of the Japanese air force thus averaged 76 planes a day from March 18 through April 17.
This toll does not include planes shot down by Superfortresses or by escorting Mustangs from Iwo Jima. In one recent Tokyo raid, B-29 gunners alone shot down or damaged 136 aircraft and escorting fighters added 27.
Japanese planes hit the Okinawa area heavily again on Monday, striking in 10 waves between 9 and 10:30 a. m. At least 10 of the attackers were demolished in suicidal attempts. Sixty-two were shot down in combat and 38 fell to anti-aircraft fire.
Infantrymen on southern Okinawa still were locked in a bitter artillery duel four miles north of the capital city of Naha while marines edged closer to the northern beaches through small pockets of Japanese resistance.

Conference Called In Paternity Suit

Los Angeles, April 18.—(AP)—A legal conference was called in superior court today over how much support Charlie Chaplin shall pay for 18-month-old Carol Ann Berry, declared by a jury to be his baby.
The verdict yesterday, cheered and applauded by many spectators, was a bitter reversal for the British-born actor in his court battle resulting from a romantic involvement with the infant's mother, Joan Berry.
The red-haired Miss Berry asks \$2,500 monthly for support of Carol Ann. Chaplin has paid her more than \$18,000 for attorney fees and still pays \$75 weekly under a pre-trial agreement.
His attorney, Charles E. Millikan, said he had not yet decided whether to appeal the verdict. He declined to say, until after the support hearing, whether he would move for a new trial.

PRAYERS FOR TRUE PEACE

Vatican City, April 18.—(AP)—Pope Pius XII addressed a letter today to the world episcopate asking that a special prayer for true peace be said during May, the month of the blessed virgin.

Truman Takes Advice From Friends But Will Run Show

By JACK BELL
Associated Press Political Editor
Washington, April 18.—(AP)—President Truman intends to run his own show. He will take advice from friends. But he will make the decisions.
That was the interpretation Washington put today on several separate actions in which the new president displayed a firmness not surprising to those who knew him on Capitol Hill.

Controversy Over Tariff Policy Starts

Washington, April 18.—(AP)—Assistant Secretary of State William L. Clayton said today failure to continue the nation's reciprocal tariff policy might well lead to a third world war.
The statement came as President Truman encountered his first pitched battle in Congress.
In response to questioning from the house ways and means committee, Clayton declared that the failure would disillusion the world regarding this nation's pledges for economic prosperity through free trade. The committee began hearings today on the administration's request for renewal and broadening of the reciprocal trade act.
Meanwhile, Secretary of Agriculture Wickard, testifying before a senate small business subcommittee, declared today that expanding world trade is essential to lasting peace and told senators that a broadened reciprocal trade agreement law and enactment of the (Turn to Page Nine)

Hoover Outlines Plans For Peace

Philadelphia, April 18.—(AP)—Mankind must bring up to date its methods of preserving peace if civilization is not to perish altogether in a third world holocaust, Herbert Hoover said here last night.
In an address before the Foreign Policy Association, broadcast by NBC, the former president said the "agreed upon a definition of aggression to include direct or indirect subsidized governmental propaganda in other nations."
"Enforcement of such a provision would help cure that cause of wars which grows out of crusading faith, political or otherwise," he said.
Hoover urged that the security council control military alliances which he said "make for balances of power" and that "Senator Vandenberg's proposal that the assembly be given freedom of initiative" be adopted.
Hoover opened his speech with a salute to the adopted, veil.

BLACK MARKET PROBE WILL START MONDAY

Pittsburgh, April 18.—(AP)—Alvin J. Williams, Pittsburgh OPA director, said last night that a federal grand jury investigation, starting Monday, into reported black market in meat in western Pennsylvania "will give our enforcement division an opportunity, not hitherto available, to assist the department of justice in some prompt and effective prosecutions."
U. S. Attorney Charles Uhl said one of the witnesses "undoubtedly" would be Reporter Ray Sprigle of the Pittsburgh Post-Gazette, who asserted in a series of articles that the meat black market in this area is a \$16,000,000-a-year business.

G. O. P. Senators Visit White House

Washington, April 18.—(AP)—A delegation of Republican senators told President Truman today that they were willing to consult with him "at any time where prospects of differences over legislation appear."
"We explained our position," added Senator Taft (R-Ohio), "that there may be occasions where differences can be ironed out directly by consultation and agreement."
Taft, chairman of the senate Republican steering committee, told reporters that he and his colleagues called at the White House in the role of the "loyal opposition."
The conference lasted about 30 minutes.
Taft told reporters it was the first time he had been in the president's office "since the days of Mr. Hoover."

NINE RUSSIAN ARMIES PUSH UPON BERLIN

Nazis Concede Red Gains Through Strong Positions In Blazing Arc Around Shattered City

OFFENSIVE ON ODER

By RICHARD KASISCHKE
London, April 18.—(AP)—German broadcasts declared today the battle for the eastern approaches to Berlin had "reached its climax," with Russians breaching defense lines only 18 or 20 miles from the capital, and that Soviets had launched a third offensive south of Stettin aimed at linking with the Allies on the north German plain.
Front dispatches to Moscow asserted the Russians could see Berlin burning, but did not yet specify that any offensive was underway.
Nine Russian armies are smashing toward Berlin, the Germans said, conceding Red army gains through the strong hedging positions in the blazing arc east and northeast of the bomb-shattered city.
The enemy declared Stalin had thrown in a third offensive on a 17-mile Oder river front south of Stettin, intending to slice in between that Baltic port and Berlin, and join the western Allies north and west of Berlin. This drive has assumed great dimensions, the broadcasts said.
The Germans declared Marshal Ivan Konev had expanded his surge across the Neisse river southeast of Berlin to a 45-mile front, and was nearing Cottbus, on the Spree river 45 miles from Berlin. Moscow has not confirmed any of these three enemy-reported drives.
Capt. Ernst von Hammer declared nine Russian armies were striking toward Berlin and "hundreds of tanks are rolling over the plowed-up battlefield x x x the battle has reached its climax."
Transocean said the Russians had pushed south from Wriezen and west from Seelow, where they would be less than 20 miles from greater Berlin, and astride main roads. One Russian frontal drive, it added, is hitting west along a main road, only 17 miles from Berlin. A deep penetration south of (Turn to Page Nine)

SECRETARY TO SEN. MYERS IS STRICKEN

Washington, April 18.—(AP)—Orrin H. Farr, secretary to Sen. Myers (D-Pa.), died suddenly this morning of a heart attack in his home at 20 Winston Drive, Bethesda, Md. He was 62.
He is survived by his widow.
Farr had been secretary to Myers during the last half of the senator's six years in the house of representatives and accompanied him to the senate this year.

AGREE ON BENEFITS

Harrisburg, April 18.—(AP)—Governor Martin's program to increase maximum workmen's compensation benefits from \$18 to \$20 weekly and minimum payments from \$9 to \$10 was approved today by the senate workmen's compensation committee. The committee also approved the governor's amendments to the occupational disease act making similar increases in benefits.

Second Missing In Action Message Received In Home

The second missing in action message from the War Department has been received by Mr. and Mrs. M. D. Ongley, of Seabirk in South West township, informing them that their son, Pvt. Francis H. Ongley, has been missing in action since April 5 in Germany.
Previously his brother, S/Sgt. Bertram A. Ongley, ball turret gunner on a B-17 based in England, was reported missing after a mission over Germany but returned to his outfit and went back into action, terming the report "quite a mistake."
Pvt. Francis Ongley was inducted March 13, 1944, had his basic training at Camp Wheeler, Ga., and went overseas with his infantry unit in August, 1944. He was in combat in both France and Germany.
Reported missing in action since January 6, Pfc. Virgil H. Nelson has written his parents, Mr. and Mrs. Harry B. Nelson, of Lander, that he is a German prisoner of war. Written in French and carrying the date January 17, the card states he was "in good health" and expected to be transferred soon. The camp given, Staling 5-A, is listed by the Red Cross as a camp for enlisted men and located at Ludwigsburg, near Stuttgart, already in Allied hands.
The Nelsons had no word concerning him since the missing in action came on January 21. He entered service on February 23, 1943, and went overseas with his infantry unit in August, 1944. He was in France at the time he was first reported missing.

TRUCK BROKE DOWN
The Mack pumper truck at Fire Station No. 3 broke down yesterday when it was found that the water jacket had rusted through. The high pressure truck was placed in the station for a time and mechanics of the department had the damaged part welded and the truck is back in service once more. A new part will be ordered.

RED CROSS NOTICE
Officials in charge of Red Cross headquarters, 404 Market street, request that all persons having smocks or uniforms there call for them as soon as possible. There are a number of garments unclaimed and the owners are urged to secure them before May first, or other disposition will be made of them.

FROST COVERED COUNTRY
Early risers this morning were treated to a view of a white frost that covered roofs and lands throughout the country. The frost was heavy and at 8 o'clock many thermometers about town still registered 32 above zero. Just how much damage was done to fruit and crops about the county cannot be ascertained until later in the season. However reports from the fruit belt along Lake Erie are to the effect that much damage has been done there and it is feared the cherry crop is almost ruined.

Sell - Out For North Warren Presentation

An enthusiastic audience that filled every seat in the North Warren community house thoroughly enjoyed the first performance of the North Warren Minstrels last evening.

The novel and attractive stage setting, the unusually catchy songs, the infectious humor, the choral numbers, ballads, quartets, and the many specialty acts all blended together to make one of the finest minstrel shows ever seen in this vicinity.

Every member of the large cast contributed his or her full share to the success of the production and all are receiving the congratulations of those who saw last night's performance.

Special credit should go to Russell F. Dietsch, director; Marie E. Cook, conductor of the special choral numbers, Gwendolyn Winner, the accompanist, and the orchestra under the direction of Georgia Lott Pepke.

The final public performance of the show will be presented this evening at 8:30 o'clock.

Inventory To Start Soon In Highway Plant

Orders issued to the Highway Superintendents in the state will soon set in motion at the local highway plant an inventory of all equipment and scrap material to be completed before May 1st. Supt. Warren Lowe will go over the local plant and all scrap will be sold or contributed to the war effort.

"This inventory," Shroyer emphasized, "shall be no hit or miss undertaking and must include every piece of equipment, good, condemned or unserviceable."

"Furthermore, the scrap inventory shall include the approximate weight of all unserviceable condemned tires and tubes; approximate weight of scrap iron and scrap material such as mixed scrap iron, heavy scrap iron, oil drums and tar drums unfit for further use; separate lists of aluminum, copper, tin and brass, all of

which will be contributed to the war effort.

"It is most important that we have a correct inventory since under prevailing war conditions there has been no appreciable increase in the amount of new equipment acquired, but on the other hand the wear and tear of the past year on our already over-aged equipment has created a material reduction."

SIZING UP THE WESTERN FRONT

DeWitt MacKenzie, Associated Press War Analyst

The slowing down of General Eisenhower's offensive need cause no anxiety or disappointment whatever, since it's a normal development that has been anticipated by observers from the outset of his great drive from the Rhine.

As a matter of fact, the western Allies are much farther ahead with their job than we had any right to expect when they began their push, and are in grand shape for the kill. The slackening off is due to several things—the rapid extension of Allied communications which has hampered movement of supplies, a stiffening of German resistance as we near Berlin and the heart of the Reich, and possibly to the requirements of coordinating the operations of the western Allies with those of the Russians.

Actually, it's one of the wonders of the war that Eisenhower has been able to move his supplies as fast as has been done—a feat of logistics which has been drawing the plaudits of military experts.

It was, of course, vital in the early days of the offensive that the momentum be maintained, because a slackening might give the enemy a chance to reorganize his shattered forces. By and large, the Allied high command has kept up the scorching pace of the offensive until the western Allies are drawing in on Berlin to join the Russians in the siege of the capital, and are close to a junction with the Red battle-line along the Oder river. Thus General Ike has out-run the early dangers attendant on his rapidly extending communications.

But, you ask, won't the present slowing down give the Hitlerites a chance to reorganize? Quite likely it will, but they're so badly cut to pieces on the western front that their reorganization won't profit them nearly as much as it would have earlier in the offensive.

However, I think we must assume that the coming battle of Berlin will be a tough one. The tightening up of Nazi resistance as we approach the capital indicates that, and the signs all along have been that Hitler intends to make a grandiose gesture in his defense of this pride of Prussia, which not so long ago had jammed within its limits some 5,500,000 people and may still contain a huge civilian population.

So it can be seen that there's prospect of considerable fighting yet, a fact which emphasizes the wisdom of Eisenhower in stating that there will be no announcement of V-E Day "until all important enemy pockets on the western front have been wiped out."

A SOLDIER PRESIDENT

Today, after more than 26 years, a veteran of the first World War, holds the country's highest office. Harry S. Truman, major of artillery and veteran of St. Mihiel and the Argonne, now occupies the White House as the first soldier-President since Theodore Roosevelt left office in March of 1909.

It is rather out of key with our past history that more than a quarter of century should pass before a veteran of one of our major wars was elevated to the Presidency. Soldiers of the Revolution, the War of 1812, the Mexican and Civil and Spanish-American Wars have all held the office, most of them not many years after they had laid aside their uniforms.

In all, 14 of our 32 presidents have seen military service in war. They have made good, bad and indifferent Presidents, so there is no apparent correlation between soldiering and statesmanship.

But it should be noted that President Truman's military record is good, marked by consideration as well as ability. It is known that the men whom he commanded held him in high regard.

President Truman suffered some of the economic distresses that were the lot of many returned soldiers after the last war. It may safely be assumed that, with such an experience, the consideration and concern which he showed for his men in battle will mark his efforts toward seeing that the veterans of this war are provided for more worthily.

SEASON FOR CONFLAGRATIONS

Of eighty-seven conflagrations in America since 1914, thirty-seven or 47.5%, occurred in the months of March, April, May and June.

This indicates, according to the National Fire Protection Association's booklet—"Conflagrations in America since 1914"—that the greatest conflagration hazard is in the spring when high winds, limited humidity, dry weather, grass and brush, and dry wood shingle roofs make conditions most favorable to the spread of fire.

The NFPA urges communities to clean up during the Spring Clean-up Campaign but cautions against burning trash on windy days or when thoroughly dried.

YEARS AGO IN WARREN

Interesting Items Taken From The Warren Evening Times

In 1925
E. E. Murray, of Youngsville and formerly a driver for the Anderson Bakery, has purchased a truck from the G. G. Greene Company and has opened a bakery route between Youngsville and Corry.

The Blue Bell Potato Chip Company, formerly owned and operated by James C. Nophske, Alexander street, has been purchased by Edwin H. Streich, 4 Allison street, and will continue the business.

Chief of Police Martin Wholeben has issued a warning to motorists not to park their cars out of doors. Many autos have been stripped of their belongings in the past days.

Several hundred dollars damage was caused by two lightning storms which swept over the section. Two homes were struck by lightning, and the streets were completely flooded.

In 1930
More than four hundred dealers of the Emblem Refining Company met in Warren, with representatives from all northwestern Pennsylvania and southern New York state. Following the dinner, the group toured the plant.

The radio-phonograph combination which the students of Beatty school will receive in turn for 6000 od records is now on display at the Phelps Radio Shop. Already 5300 records have been collected.

E. Clyde Orris, 511 West street, has received notification of his appointment as superintendent of highways for Warren County. Mr. Orris was formerly connected with the Bethlehem Steel Company.

Natural gas engineering students at the Pennsylvania State College will visit Warren in their tour through the state. The students, all seniors, will inspect the Struthers Wells Company laboratories.

Everyone Is Responsible In Forest Fires

The protection of woodlands from fire is the responsibility of every person, says R. F. Hemingway, Forest Supervisor of Allegheny National Forest. Our forested areas are now in a critical period due to the tinder dry condition of the accumulation of dead leaves, twigs, and partially decayed material which covers the forest floor. A small spark carelessly dropped into this highly inflammable litter will start a fire that may require the services of large crews of industrial workers now employed on war material production to suppress. Thousands of trees large and small, may be injured or destroyed.

Wood and its products have been used by man since the beginning of time. This condition is especially true today. Due to laboratory research wood provides more than 4000 uses. A recent report states that our Navy uses wood for more than 1200 purposes.

Certain food elements, medicines, plastics, lumber and timbers, veneers, plywood, resin, pitch, rayon, shoes, towels, cardboard, and a great many other items come from trees. New uses are discovered each year.

Many large forest fires have laid waste vast areas on Penn's Woods in northwestern Pennsylvania, says Mr. Hemingway. In too many instances, the damage continues for generations to come when the humus or top soil has been consumed. Trees require nourishment and when robbed of

La moda Americana... Have a Coke

(THE AMERICAN WAY)

...an American custom as seen in Italy

People overseas are impressed by the American fighting man's friendliness among his fellows. They see his home-ways and customs—his good humor. Have a Coke they hear him say to his buddies, and they begin to understand America. Yes, the pause that refreshes with ice-cold Coca-Cola speaks of the friendliness of Main Street and the family fireside.

V-E Day Won't End Trouble Over Various Shortages Here

BY STERLING F. GREEN

Washington, April 18.—(P)—Some of the worst shortages may come after victory in Europe.

Very obviously the government expects a German collapse before mid-year. Ultimately civilian goods will rise to pre-war levels, even if Japan fights on for another 12 or 18 months.

But some of the really troublesome shortages—the day-to-day needs that worry housewives and cause hours of hunting in the stores—in shirts, shoes, house dresses, children's overalls and infants' underthings, are likely to be worse before they are better, come V-E Day or not.

Some of the goods that appear to be plentiful in the stores will disappear. Many are the tag-ends of supplies, the wind-up of the merchandizing pipeline from manufacture to jobber to wholesaler to retailer.

The pipeline is emptying. When the stores sell out there may not be more coming up.

In order to get more moderately priced goods started up the pipeline again, WPE has clamped harsh controls on the protesting garment industry.

"Next fall and winter those same shelves would be bare of many important apparel items without this program," says William Y. Elliott, director of WPE's office of civilian requirements, in defense of his stern regulations.

Fewer shoes will be made in the next several months because of deep new cuts newly imposed on leather supplies for civilians WPE wants manufacturers to make 150,000,000 pairs of fabric-and-

rubber substitutes, but the manufacturers generally are not eager to do it. It would require some conversion of machinery.

The shortages are not confined to clothing. Automobile batteries are scarce right now, for instance, and a 40 per cent drop in manufacture this month was averted only by dipping into the country's depleted lead stock pile.

Enough lead is being furnished to the makers of tubes for toothpaste and shaving cream to carry them while they convert to aluminum or some other substitute.

Lumber will be scarce for months. So will paper, photo film and many other things.

"In both cotton and woolsens, the army's large requirements will not diminish after V-E Day," said Elliott this past week end. "In many items there are increases for the Pacific war through 1945. That will affect the supply of textiles and garments through 1945 and possibly into 1946."

CHURCHES

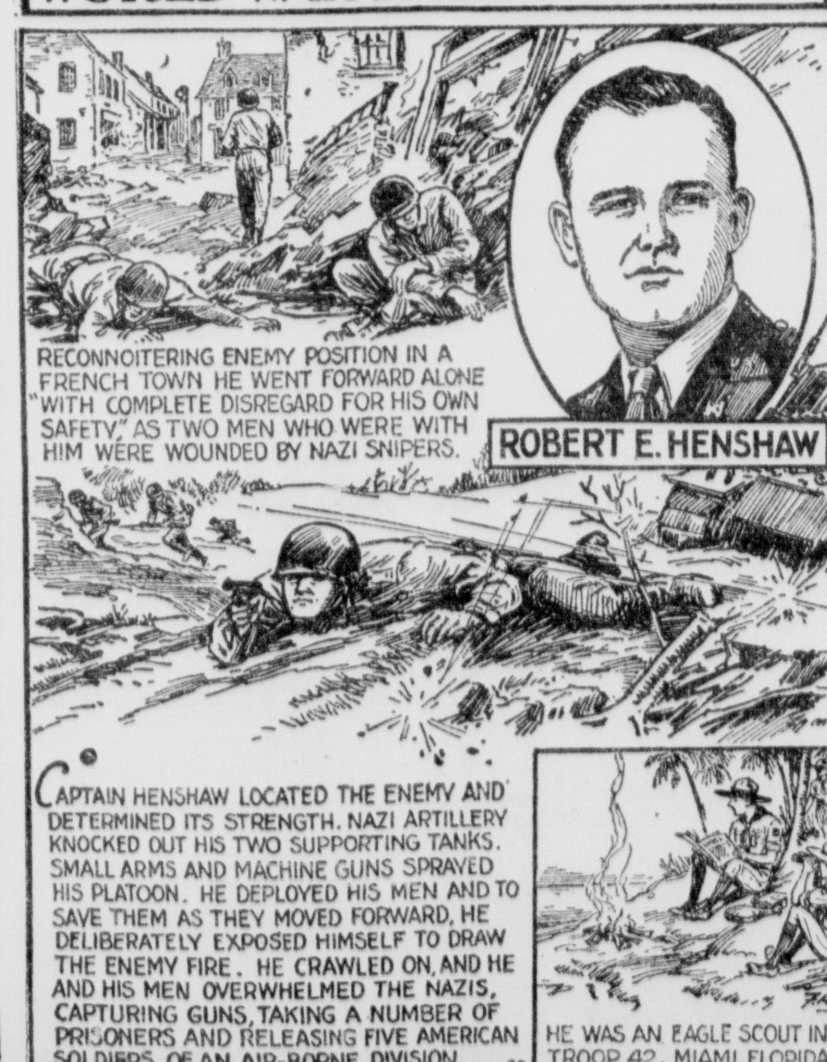

AT UNITED BRETHREN
Rev. C. Norton Warner, of Jamestown, N. Y., is bringing some fine spiritual messages at the revival meetings being held in the First United Brethren church and Mr. and Mrs. Bert Peterson, of the same city, are in charge of music and making themselves popular in that field. Mr. Peterson is reported an artist with the trumpet and all are invited to hear "Ladies Night" this evening; each evening at 7:30 o'clock. Special nights this week include "Young People's Night" on Thursday and "Sunday School Night" on Friday. The public is invited to attend any or all of these meetings.

Good Looks

By Mullen Drug Co.

Good looks are a business and social asset to any man or woman. And good health is one of the prime sources of good looks.

To maintain your own good looks and health, visit your doctor at least once a year for a check-up. This habit, once established, should help to keep you in good health all the time. More than that, it will induce better health habits, and make you better able to meet the challenges of life.

When your doctor's recommendations include a prescription, take it to a trusted druggist for filling. He realizes the importance of even a simple prescription.

Stray Leaves From Notebook Of Reporter About Town

In talking with some of your friends who have been in England you may learn, as one of the surprising details of the pre-invasion period that wood was rationed. But ends of logs, even only two or three feet long, were apportioned to furniture trades and weighed out in pounds to craftsmen. Dunnage from our ships was sought with more personal interest than munitions in the cargo. These are unofficial details, but we have known, as early as the North African Campaign, that our troops were hoarding packing cases to fashion roughly into the simplest of furniture and living "luxuries". They were burning broken ends and slivers for warming fires.

In the light of such scarcity, we can afford to look a bit more seriously at our comparative wealth of wood resource. As a matter of fact, it is only comparative. Our remaining virgin stands, mostly in the Northwest, are inevitably being cut out. We are getting along largely on second-growth timber; good second-growth much of it, but not the lush virgin stands. Some of our best timber is relatively (economically) or actually inaccessible. It is estimated that the United States in 1943 amounted to nearly 17 billion cubic feet, and exceeded total growth by 50 percent (nearly 100 percent in saw-size timber). In

Lemon Juice Recipe Checks Rheumatic Pain Quickly

LUDLOW

Ludlow, April 16—Moriah Lutheran church held its regular services on Sunday morning with a memorial tribute to President Roosevelt held near the close of the program. "Green Pastures" was sung by the choir with Miss Elizabeth Hess as soloist. Tapes were played by Robert Johnson and James Nelson.

On Saturday afternoon an organ memorial program was given at the Lutheran church by the church organist, Mrs. Enoch Nelson. Favorite music of the president was used on the program. The church bell was tolled at four o'clock. The Lutheran Brotherhood met on Thursday evening in the church parlors with Messrs Homer Gilfert and Charles E. Carlson as hosts. The meeting was opened by the president, Wilbur Johnson and Scripture reading and prayer was given by Rev. Hans Pearson. A business discussion followed. The following program was given: Reading, Leroy Johnson; saxophone and cornet duet, Thomas and James Nelson; reading, Clyde Gilfert; piano solo, Robert Johnson; harmonica solo, E. O. Nelson. The meeting closed with a program and a tribute to the memory of President Roosevelt. Lunch was served at the close of the meeting.

HOW SMART ARE YOU?

Wise smart, if you are one of the thousands of girls and women who have found blessed relief from "monthly grumps" in Chi-Ches-Ters Pills. Of course, they do not correct organic menstrual conditions that require consultation with your doctor, but they do help to relieve the discomfort of functional pains, cramps, headaches and nervousness that frequently accompanies the normal menstrual period. Taken according to directions, preferably two or three days in advance of your time, Chi-Ches-Ters Pills tend to relax the muscular contraction that is often the cause of unnecessary distress. An added iron ingredient helps promote resistance and energy. Before suffering again ask your druggist for Chi-Ches-Ters Pills, and accept no substitute. Caution: Use only as directed.

spring for the Gustavus Adolphus Children's Home of Jamestown was a decided success this year with a total already at \$156.35. The Sunday school children work very hard and cover the town thoroughly in their zeal to help less fortunate children and the town responds. Mr. Olson would like to express his appreciation of the interest shown by everyone. The children with the largest results to date were Vivian Nelson, \$8.00; Shirley Swanson, \$6.95; Joanna Johnson, \$6.35; Margaret Ann Swanson, \$6.15, all of the intermediate department. Two highest in the primary department were Gary Swanson, \$5.65 and Doris Johnson, \$4.60.

The National Clothing Drive was a real success in Ludlow and the committee wishes to thank the entire town which so wholeheartedly responded to this drive. It seems impossible that such a small town could do such fine work. If all of the nation had as good results as Ludlow, many a poor refugee or citizen of the war-torn areas will be clothed this winter.

Pennsy Develops New Engine Types For War and Peace

Five new types of powerful locomotives for swift freight and passenger runs have been developed by the Pennsylvania Railroad during the war period, with a sixth under consideration as an experimental type. Of the five which have been developed, three have actually been produced and are in service, while the others are under design.

"All the energies of this railroad," says the Pennsylvania in a summary of the new locomotives, "are bent to the task of carrying the war load. Traffic dwarfing all records of the past has naturally meant more engines and cars, just as, to the Army, war needs have meant more tanks and guns."

"It was important that the new engines should do the war work better than the old. That has meant research, experimentation and improved designs—all as contributions to war transportation. These new, big engines will help to win the war and to win the peace; for the railroad is planning to meet the nation's peacetime needs better than ever before."

Descriptions of the new locomotives, both those which have already been produced, and those which are to be produced later, appear in the April issue of "Train Talks", the railroad's occasional publication for its patrons, which

is now being distributed to passengers.

Of the two new locomotive types now under design, the most striking is the gigantic 9,000 horsepower "Triplex," so called from its extremely unusual appearance. It will stretch out over nearly 137½ feet of track, and its main sections will be arranged differently from any locomotive ever before built. Coal will be carried in a compartment in the front. In the center will be a cab and boiler section, with cab ahead and smoke stack at the rear. The third section will be a large water tender. Power will be provided by two direct-drive steam turbines. The "Triplex" is intended for both passenger and freight service, to haul very heavy trains at high sustained speeds.

Also under design is a new electric passenger and freight locomotive to provide even greater power, dependability and efficiency than the famous GG-1s which have hauled the war load in the Pennsylvania's electrified territory. The new type under consideration for experimental purposes is a turbo-electric coal-burning steam locomotive of great power and speed, to be produced jointly with other railroad and equipment companies.

The three types which have actually been produced and are in operation include the T-1, a multi-

cylinder passenger and freight locomotive, capable of 100-mile an hour passenger speeds; the type Q-2, a multi-cylinder freight locomotive, fast and powerful; and type S-2, the first direct-drive steam turbine locomotive to be built in the country and meant for both freight and passenger work.

"Since 1939, the first war year," says the Pennsylvania, "this railroad has added to its equipment 137 coal-burning steam locomotives, 67 electric, 17 Diesels, 14,998 freight train cars, and 153 passenger cars."

BACK IN STATES

Pvt. James E. Ferrin, son of Mrs. Mabel E. Ferrin, of Youngsville, has arrived safely in the United States following evacuation from a hospital in France, and expects to see his family soon.

MARKSMAN'S MEDAL

Mrs. James Young, of Saybrook, has received word that her husband, Pvt. Young, of Camp Maxey, Texas, has been awarded the marksman's medal for sharpshooting.

Word has been received by Mrs. Robert M. Jensen, 16 South Irvine street, that her husband, stationed in the Philippines has been transferred from the Infantry to the Army Topographical Engineers and promoted to Private First Class.

Mrs. Ardel Drayer, 111 Crescent street, has received word from her husband, "Dee" Drayer, who is somewhere in the South Pacific that he has been advanced from fireman second class to first class rating. Before entering service, Fireman Drayer was employed by the National Forge at Irvine.

Lt. William Kitchen, stationed in Washington, D. C., spent Tuesday in Warren with his grandmother, Mrs. J. W. Kitchen, East street, occasion of her birthday anniversary.

Mrs. Chester Bailey, Dobson avenue, has received word from her husband, who is serving with the 942nd topographical engineers in France, has been promoted to corporal.

Mrs. Winger Reelected President of Blue Stockings For Another Season

Mrs. Robert Winger was re-elected president of the Blue Stocking Club for another season in a brief annual business meeting held at the YWCA activities building on Tuesday afternoon.

The meeting followed the annual luncheon, arranged by Mrs. H. H. Barr and Mrs. Burr Walker and served at a table attractively arranged with pastel sweetpeas, matching candles and garlands of bridal wreath. Mrs. W. E. Lutz gave the invocation.

After Mrs. Winger had welcomed the guests and thanked the luncheon committee, she called for reports of the secretary, Mrs. George Calderwood, and the treasurer, Mrs. Brackett Ayres, thanked her officers and committee heads for their season's work, and read a letter from the Federation president concerning the Dumbarton Oaks plan and the international monetary agreement. Members voted to hold meetings next season at 2:30 in the afternoon.

For the musical program, Mrs. Harriett Wilkins played three dances in the Russian vein by Shostakovich.

Mrs. W. R. Carlin presided for the election of officers selected by the nominating committee and reported by Mrs. P. S. Tarbox. The entire slate was reelected for another year as follows: First vice president, Miss Ethel Morris; second vice president, Mrs. Norbert Peterson; secretary, Mrs. George Calderwood; and treasurer, Mrs. Brackett Ayres.

Committee heads announced for next season by Mrs. Winger were: Mrs. Peterson, press; Mrs. Barr, legislative; Mrs. F. L. Plummer,

Mrs. Edith Smith and Miss Mabel Siggins, program.

The meeting was adjourned after some discussion concerning program desires for next year.

Mrs. Charles Moore extended an invitation for members to hold the September program-meeting at her home in Garland.

Since it was the birthday anniversary of Mrs. J. W. Kitchen, a member confined to her home by illness, members remembered her with the lovely bouquet from the table's center.

Freshman Girls' Club Is Preparing Tea-Fashion Show

A "special communique" received this morning from the Freshman Girls' Club of the YWCA has this important news to make public to friends of the organization:

Spring is here once again and we of the Freshman Girls' Club feel in the mood for a style show. How about you? Under the direction of Mrs. Hugh Logan, we are having a tea and fashion show at the Y. W. C. A. activities building on Saturday, May 12th.

Committees and models have been chosen and all are working hard to make the affair a success. The girls will model their own clothes, and will choose costumes for every hour in the day. We want all of our mothers and friends to come, so please don't disappoint us! And, wish us luck!

A musical program is being planned for added enjoyment and a very special surprise will be announced in a few days.

'Cinderella Ball' At Country Club

Plans are under way for the first social event of the season at the Conewago Valley Country Club. A "Cinderella Ball" will be held Saturday, May 5th, at the club house.

Chairman for the affair is Mrs. Frances Bates, with Mrs. Thomas Creal, Mrs. Robert Kopf and Miss Ann Walker as her committee.

Due to the midnight curfew, dinner will be served earlier and music for dancing until 12:00 will be furnished by "Those Four Guys".

Members are asked to watch for announcement of time and reservation information.

Very Old and Very Young May Be Saviours of Germany

With the American First Army (P)—German boys in knee pants, buxom hausfraus, girls and elderly men and women whose place would be at the fireside in normal times have taken the salvation of Germany into their hands.

With millions of German sons and husbands killed or prisoners, and other hundreds of thousands still serving in a lost war, the burden of sustaining the reich's economic life has fallen on the children, wives and old folks. They are tilling Germany's beautiful rolling green acres, filling in bomb and shell cratered fields and repairing damaged homes to make them at least livable.

Old men and sturdy young women wearing the blue trousers that are the almost national civilian uniform are plowing and planting. Old women and children are raking early hay in the upper pasture land. They wait only for the first wave of battle to pass them by—then they come out of their cellars and start building toward their old life with incredible industry.

That's the one thing that impresses you most as you drive through German towns and countryside. These people seem to realize that no one can save them now but themselves and already the yare channeling into rebuilding activities the energy they have poured into the war for five and a half years.

Old men of 80 or more totter out to salvage bits of timber for fire or to haul wood from the forest. I saw one group of these old codgers trying to fill a huge bomb crater in a field near Hamburg. Four of them would scrape a few ounces of earth from the surrounding soil and toss them into the crater with long shovels.

For four days on the way to and from the battlefield I saw them working in the morning and still at their task in the evening when I returned. On the evening of the

first day the crater was filled and they had moved on to the next one.

People take very seriously the possibility of food shortages against which Eisenhower warned. Most cellars are stocked with home preserved fruits and vegetables and most families have vegetable gardens tended by housewives, boys and girls and the white-haired, keen-eyed old women you see everywhere.

Even milk cows have gone to work in Germany. Teamed together or with a horse, they pull plows and carts. Draft horses are scarce on farms apparently because they went to war to pull artillery pieces through Poland, France and Russia. Much German artillery was horse drawn to ease the strain on gasoline reserves.

Germany once was described by a woman writer as "a beautiful prison." It is a shining land with deep, clean rivers, clean rolling hills, and clean forests of ordered beauty bordering fruitful valleys. Driving through these signs of patterned thrift, soldiers find it difficult to explain why Germany ever went to war.

"With a country like this to live in," they ask, "what did they want to start a fight for?" Lots of Germans are asking themselves the same question.

Browns Slam Newhouser, 7-1, To Continue '44 Trend; One-Armed Gray Slams a Single

By JACK HAND
(Associated Press Sports Writer)

Nine straight opening day victories for the St. Louis Browns went into the record books today as a companion piece to their 1944 feat of copping a first American League pennant.

Luke Sewell's gang took up where they left off last year by knocking off Detroit, a habit that paid big dividends in winning their first flag when they did it 13 times in 22 starts.

Hal Newhouser was the victim of the Browns' 7-1 uprising as Sig Jakucki, tomato-faced right-hander, allowed only six well-scattered hits.

One-armed Pete Gray broke into the majors for the Browns with a single and was robbed of a sure double on a circus catch by Roger Cramer.

Standout individual performance of the openers was turned in by the New York Yankees' Russ Derry, starting his first full season in the big show. Derry, a slim Mill Grove, Pa., farmer, belted two homers in his club's 8-4 decision over the Boston Red Sox.

The second came in a seven-run seventh inning rally with the bases jammed.

George Metkovich, Sox first baseman, set a new league standard he will not be proud of, when he committed three errors in that same seventh frame. The first two were on the same play when he missed a baserunner going to first and threw wildly to the plate letting two men score. The third set the stage for Derry's grand slam clout.

Starter Atley Donald was credited with the win over Rex Cecil, although neither was around at the finish.

Frankie Zak of Pittsburgh provided the day's oddity during the game with Cincinnati, won by the Reds in the eleventh, 7-6, with two on, Zak's shoestring came untied and he asked and received a call of "time" from umpire Ziggy Sears. Pitcher Bucky Walters didn't hear the ump and dished up a home run ball to Jim Russell. But it was all disallowed.

Dan Clay boosted the Reds into the game with a bases-loaded circuit clout and won it with a single in the eleventh in Cincinnati. Reliever Hod Lisenbee was the winner over Rip Sewell.

Mel Ott set six new records while his New York Giants ruined Boston, 11-6. Starting his 20th season with the same club, Ott broke a mark every time he scored or batted in a run, drew a walk, slammed a long hit or picked up an extra base on a long smash.

Bill Nicholson drove in one run and scored another in the Chicago Cubs' 3-2 margin over the St. Louis Cardinals behind Paul Derringer's effective hurling. The Cubs got only four safe blows off Ted Wilks and Bud Beverly, the loser.

Veteran Curt Davis and Rookie Mike Sandlock teamed up for Brooklyn's 8-2 decision over the Phillies and Ken Raffenberg. Davis allowed eight hits and came through with a homer. Sandlock slammed three hits.

Joe Kuhel and Rookie George Binks each connected safely four times in Washington's 14-8 smothering of Philadelphia's Buck Newson. The Senators stole five bases to make it an easy job for Dutch Leonard.

Timely Chicago hitting, combined with Cleveland defense jitters, gave Thornton Lee the verdict over Ray Reynolds in a 5-2 game at Cleveland. Neither pitcher went the route.

Major Hoople, Never Wrong, Sees Tigers and Pirates in Photo Finishes

By MAJOR AMOS B. HOOPLE
Second Base Viol Player

Egad! Another baseball campaign is upon us and I'm wearing my football helmet! Quick, Jason, the moth balls, my word! As I scan the rosters of the major league clubs, I behold the names of certain aged athletes I thought had been tucked away in the camp and stacked on the shelf many months ago.

But this decrepitude, I perceive, is offset by the influx of a group of hopefuls fresh from the fourth grade. How! This should be a jolly season, with both the orphanages and old share of diamond gladiators.

You may recall I won some fame as a prognosticator a few years back when I selected both St. Louis team to win the pennants. Of course they didn't win that year, but several years later, much to the surprise of the wisecracks, my prediction was fulfilled. Not bad, eh?

This year I am selecting the Detroit Tigers to win the American League pennant. The finish with the Clevelanders. The same kind of finish is augured in Frick's ferocious Pittsburgh Pirates scoring by a nose.

Here are the rankings and, like my good friend Bill Klem, the Old Arbitrator, I was never wrong in my life.

Campaign Is Launched In South America

State College, Pa., April 17—Sam Browne, former Penn State basketball player, has launched a one-man campaign to popularize the cage sport in South America.

Browne went to Peru before the war on a teaching assignment, and in four years helped develop a Peruvian team that won 25 of 28 international matches.

DePaul University, whose Geo. Miklan was voted the top player of 1945, has indicated an interest in a South American junket, and Browne hopes to interest Nelson Rockefeller's Pan-American organization in the project.

"There's going to be a terrific boom in international competition after the war," the ex-Lion cager says, "but we don't have to wait until then to bring teams of the Americas together."

"Because travel expenses are comparatively low," Browne explains, "we can start with basketball, and add other sports later. Basketball is widely played—and well-played—in Latin American countries."

Browne, who returned to this country about a year ago, teaches physical education in the Benjamin Franklin High School, Philadelphia.

Mort Cooper Discusses Salary With O'Connor

Chicago, April 18—(AP)—Morton Cooper, St. Louis Cardinals ace pitcher, had an appointment today (2 p. m. C.W.T.) with Leslie M. O'Connor, chairman of baseball's advisory council, to discuss his salary troubles.

O'Connor said Cooper had requested a hearing but there was no indication that his brother and battery mate, Walker, would be present. The brothers are after salary increases from \$12,000 to \$15,000 and have submitted their case to President Ford Frick of the National League.

Walker Cooper played in the season opener here yesterday. The Cards are idle today.

WHS Cagers Awarded 'W's And Sweaters

Presentation of letters and sweaters to members of the championship 1944-5 basketball team was made this morning in an assembly at the High School. Joe Scalise, captain of the team and who also received honorable mention on the AP all-state crew, presided at the meeting.

"W" letters were awarded to Joe Scalise, George Lucia, and Bob Hammerbeck, who is now in service. Those boys had previously received sweaters. Both the sweaters and letters were awarded to the following: Alan Babcock, Jack Eaton, James Farrell, Vincent Gray, Tom Juliano, Ray Reed, Jim Scalise, Neil Simmons, and Khar MacDonald, manager.

Mentor Joseph A. Massa loses the services of all of the boys except Babcock, Eaton, Gray, Reed, Jim Scalise, and Neil Simmons. Gray and Simmons return but for one semester next season.

Zurita Risks Title Tonite With Angott

Mexico City, April 18—(AP)—Making his first title defense since he beat Sammy Angott for the crown more than a year ago, Juan Zurita risks his NEA lightweight championship tonight against Ike Williams of Houston, N. J.

Mexican sports fans are looking forward to watching their hometown champion in action with the same enthusiasm as the regular Sunday bullfights. And that, senior, is something.

A near capacity crowd of some 30,000 is expected to watch the scrap in the Mexico City bullring. On this basis, with ringside seats priced at \$20, Promoter Sam Rosoff estimated gross receipts at \$100,000.

Although Williams, a sharp puncher who knocked out Dorsey Lay in Philadelphia before coming south of the Rio Grande, has gained more favor as fight time approached, Zurita remained the favorite.

Zurita's speed was expected to help him counter Williams' punching power. He also is expected to be more at home in Mexico City's high altitude over the long 15-round route.

Behind the Lines

Following the return of students to their classes Monday, the Meadville School Board acceded to a request by a newly-formed parents' association and have agreed to meet with these parents Friday night. Among those parents was Dr. J. E. Cavetti, of Allegheny College. The tide has passed, but just temporarily. The removal of Harry Denison as the Meadville court mentor has further aroused the ire of the Meadville citizens, who are disgusted with the turn of events at the Meadville High School. Warren citizens can be thankful that they live in a town where athletics are at a high point, and where the management of such is well in hand.

Wright Wins In Ten-Round Battle

Los Angeles, April 18—(AP)—Shortender Chalky Wright, veteran Los Angeles Negro lightweight, pounded out a decision in 10 rounds last night over Willie Joyce of Gary, Ind.

The Maryland Boxing Commission barred Wright for life on Monday, charging he failed to try against Jackie Wilson of Pittsburgh, April 9. Wright was warned by the California commission that if he didn't give his level best against Joyce he would be barred here, too.

Wright, active in the ring for 17 years, made one of his best stands. He beat the speedy and shiftty Joyce to the punch, scored numerous stinging left jabs that kept the Gary, Ind., Negro off balance, and was in command during the infighting.

Joyce had been installed as a 1-6 favorite. Referee Mushy Callahan and two judges were in agreement on the decision. Joyce weighed 136½, Wright 132.

COCHRAN AND HOPPE CONTINUE THEIR TOUR

Dallas, April 18—(AP)—Walker Cochran and Willie Hoppe meet today in the first block of their Dallas appearance in a transcontinental world's three-cushion billiards championship match.

They were supposed to have opened a six-block engagement here yesterday but their train was delayed by high water and they could not arrive in Dallas in time for either afternoon or night sessions.

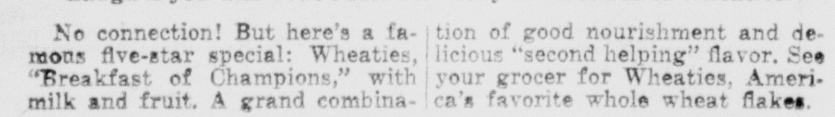

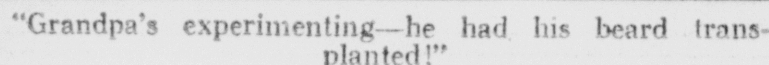

Champion Cochran and Challenger Hoppe, the latter leading in the match 2,486 points to 2,372, will play this afternoon and tonight and repeat the performance tomorrow. They may remain in Dallas for two more blocks Saturday.

Resort Houses Exempt From Rent Rulings

Resort housing which is rented purely on a seasonal basis will again be exempt from the Rent Regulations during the summer of 1945, Frank S. Anderson, Rent Director of Erie and Warren counties, announced today.

Cottages, rooms, and other housing accommodations must meet two tests to qualify for such exemptions. They must have been customarily rented or occupied on a seasonal basis prior to October 1, 1944 and not rented during any portion of the period beginning on November 1, 1943, and ending February 29, 1944. The exemption of seasonal housing from the Rent Regulation will apply only from June 1, 1945 to September 30, 1945.

While the exemption of resort housing for the summer of 1945 is similar to that which existed in the summers of 1943 and 1944, a new amendment requires that such landlords claiming exemption file a separate report form for each address in which exempt housing accommodations are located. Such report form must be filed with the Erie Office not later than May 31, 1945.

Report forms are now available at the Rent Office. They are much simpler than the registration form required for ordinary housing. The staff of the Rent Office will assist any landlord who wishes help in filing such report forms.

Anderson further indicated that landlords renting housing accommodations on a yearly basis, which were formerly rented only during the summer resort season, must be registered on the regular registration forms. Higher rates may not be charged by such landlords for the summer season than for other months of the year unless the landlord's rights to such rates have been established by landlord's petition or the rent on the date determining the maximum rent permitted such collection.

"JOIN THE NAVY IN FAT SALVAGE," SAYS ADMIRAL

Real Need For Fats and Oils to Help Make Indispensable Products Seen By Rear Admiral W. J. Carter of U.S.A. Supply Corps

"It is the policy of the Navy to salvage used fats from its cooking operations whenever this can possibly be done," Rear Admiral W. J. Carter, Supply Corps, U. S. N. declares.

Rear Admiral W. J. Carter

"Last year the Navy salvaged millions of pounds of otherwise unusable fats for war manufacturing purposes. From these fats are made such important items as soap, protective coatings, indispensable rubber products, explosives, pharmaceuticals and many other things. There is a very real need for the fats with which to manufacture these products—and the Navy is glad to do its part in collecting all it can. We invite you to join the Navy in salvaging all of the used fats you can in your own home. The need is great and the task is small, though very important."

Dawn of New Day Foretold In Article Written in 1935

(Written March 26th, 1935, by Mrs. A. G. Mahaffy)

In every crisis God has raised up a man to lead his people out of darkness into light; and in the minds of the majority of Americans we believe Mr. Roosevelt to be that man.

With the ancient and eternal truth upon his lips that "where there is no vision the people perish," he has seen beyond the fog, knowing that nothing splendid has ever been achieved except by those who dare believe that something outside themselves was superior to circumstances—knowing that if the tire goes out it will come in again. With that sure knowledge

he has forged ahead. We have been brought to our knees by all we have suffered during the last five years and now we begin to see as through a glass darkly, the dawn of a new day upon whose threshold even now we stand.

The great developments now under way will bring that condition while all may live more fully—and we will emerge a nation of really free men. Until then let us say with the street cleaner in "Seventh Heaven," who, looking up from his attic window exclaimed "I Work in the sewer but I live among the stars."

where she is convalescing. Mrs. Burt Graham, Jr., has returned to her home here following a visit with friends in Corry.

Miss Ellen Davis was hostess to the members of the Woman's Auxiliary on Wednesday afternoon. The society now are endeavoring to raise funds to have the mausoleum painted.

Services were held in Garland's churches on Easter Sunday. Several infants were baptized in the M. E. church.

Mr. and Mrs. Ray Cartwright of Corry were in town calling on relatives and friends Wednesday. They were former Garlandites.

A beautiful red cardinal who seems to have settled on the window sill of Norman Taylor's store, is attracting much attention. The bird has been fluttering on an apple limb near the window and on the window sill for about two weeks. Late in the evening and early in the morning the bird is at his post, his cheerful call being heard for some distance.

Mrs. Harry Richards who has been on the sick list for some time is planning to enter the hospital for an operation. Her friends hope she will be much improved in health.

Friends of Robert Boyce will be interested to learn of his recent marriage to Virginia Fitzgerald, daughter of Mr. and Mrs. Wayne Fitzgerald of Warren. Robert spent much of his early life here and the family is well known in Garland and vicinity as he is a son of Mrs. Elmer Wedlock and a grandson of Mr. and Mrs. Fred Bogart, formerly of this place. His many friends in Garland extend their best wishes for happiness.
